

## Inspiration Port Credit: 70 Mississauga Road South

**Inspiration Port Credit is a City of Mississauga project that began with Our Future Mississauga, the City's 40-Year-Strategic Plan. Inspiration Port Credit will help to 'create a model, sustainable, creative community on the waterfront.'**

**For 70 Mississauga Road South, we've refined our draft principles to respond to what we heard from you on the various themes. Have a look and let us know what you think!**

## Vision

A lakefront urban neighbourhood of landscapes, meeting places, living, working, learning and drawing people to the water's edge to play.

# Inspiration Port Credit: 70 Mississauga Road South

## Connectivity

The pedestrian, cycling and vehicle connections to the neighbourhoods next door need to be carefully considered. Connections will be sensitive to the existing communities.

Are we heading in the right direction?

- Yes
- No

If no, why not?

## Sustainable Development

- Any redevelopment will be subject to site conditions, and surrounding neighbourhoods' character, transportation and municipal services
- The number of residents and workers in the area will be appropriate for Port Credit's urban waterfront village and the City's urban structure as a whole
- There will be a mix of ground floor offices and shops and artisanal studio live/work spaces
- There will be open spaces for walking, cycling and play throughout the area
- There will be a variety of housing choices for ages and affordability
- Design excellence will honour the water and the village

Question: Are we heading in the right direction?

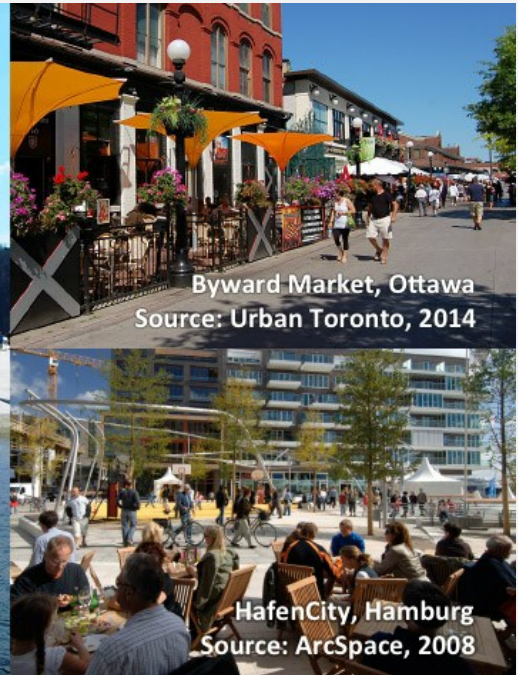

- Yes
- No

**If no, which elements concern you and why?**

Destination

Create a vibrant gateway to the village by extending the mainstreet across the Lakeshore Road frontage and include shops and offices.

Support the development of new community, academic, research and/or regional cultural campuses or facilities to benefit the economy, support year-round activities and connect landscape to the water.

Question: Are we heading in the right direction?

Big Waterfront Open Space and Nature

**Create a large destination park at the water for people to gather, celebrate, play, walk, cycle and look at the lake all year round.**

**Make natural areas a part of open spaces and the shoreline for wildlife habitats, water quality and climate change.**

**Question: Are we heading in the right direction?**

- Yes
- No

**If no, why not?**
