FROM: Caitlin Lacy, Associate Archaeologist & Project Manager, Planning Assessment Division

RE: 5150-5170 Ninth Line, City of Mississauga

ASI File: 18PL-313

This letter is to confirm that ASI has been retained by Mattamy Homes to complete an archaeological assessment (fieldwork and report) at 5150-5170 Ninth Line. The Stage 1 report has been completed and entered into the Ontario Public Register of Archaeological Reports.

Stage 2 fieldwork has been completed at 5170 Ninth Line. Nothing of archaeological significance was found.

Stage 2 fieldwork has been initiated at 5150 Ninth Line. Conditions were too wet to complete the fieldwalking and, in consultation the fieldwork liaison from Mississaugas of the Credit First Nation, the survey will be completed when conditions improve. One of our licensed archaeologists is scheduled to check on the conditions on November 21, 2019.

The Stage 2 report will be prepared when the fieldwork has been completed.
