**Re: Reliance Letter, 7211 & 7233 Airport Road, Mississauga, Ontario**

---

Dear Jonathan,

As requested, HGC Engineering has prepared this letter to address the revised site plan, attached, provided by Weston Consulting dated October 25, 2019. Our latest noise report for this site is entitled, "Noise Feasibility Study, Proposed Seniors Residential Development, 7211 & 7233 Airport Road, Mississauga, Ontario" dated December 15, 2017.

Since our report, the site plan has been revised. The height of the proposed building has been increased from 5-storeys to 6-storeys. This is a minor change to the site plan and does not affect the acoustic recommendations contained in our December 15, 2017 noise report.

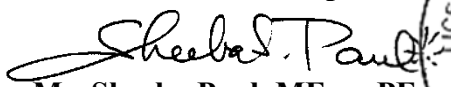

The recommendations contained in our December 15, 2017 noise report remain valid. Please use this letter as reliance on our latest noise report dated December 15, 2017.

We trust this information is sufficient for your present purposes. If you require further information or require clarification, please do not hesitate to contact us.

Thank you.

Yours truly,

**Howe Gastmeier Chapnik Limited**

  
**Ms. Sheeba Paul, MEng, PEng**
