

A1

Notice of Study Commencement Summary

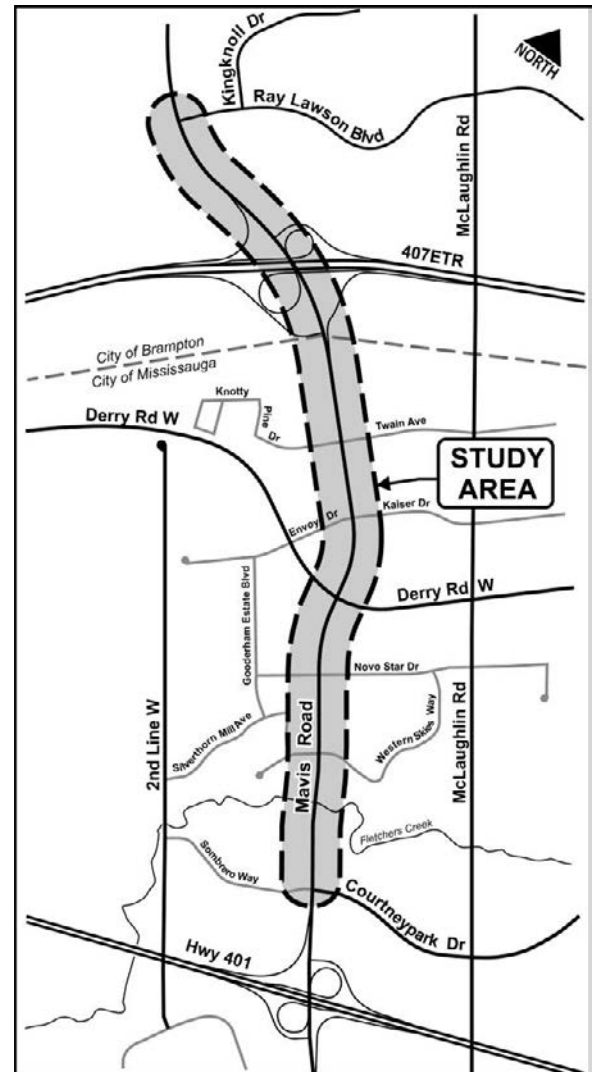

The City of Mississauga, in partnership with the Region of Peel, has initiated a Class Environmental Assessment (Class EA) study for Mavis Road from Courtneypark Drive West, in the City of Mississauga, to Ray Lawson Boulevard, in the City of Brampton, to address existing and future 'multi-modal' transportation conditions.

Within the City of Mississauga, Mavis Road consists of four travel lanes, raised median, sidewalks on both sides and some sections of multi-use trails. Within the City of Brampton, Mavis Road is a Regional Road (18) and has recently been widened to six lanes from Steeles Avenue to south of Ray Lawson Boulevard, with a multi-use path on the west side and sidewalk on the east side.

This Class EA study will examine how traffic operates both now and in the future, and will identify ways to address current and future needs to best serve a variety of users including motorists, transit users, pedestrians and cyclists.

The study will be conducted as a 'Schedule C' project under the *Municipal Class Environmental Assessment* (October 2000, as amended in 2015), which is approved under the Ontario Environmental Assessment Act. Through this planning process, the Project Team will define the problem, evaluate alternative solutions, determine a preferred design, examine impacts on the social, cultural and natural environments and identify measures to mitigate those impacts, all in consultation with regulatory agencies and the public. At the end of the study, an Environmental Study Report (ESR) documenting the entire study process will be available for public review.

Public participation is an important part of the Class EA process. Throughout the study, the City will make contact with various agencies and members of the community, and consider their opinions as part of any decisions that are made. Two Public Information Centres (PICs) will be held to present study information and enable the public to meet the project team and share feedback. Details regarding the PICs will be advertised publicly as the study progresses.

CITY OF MISSISSAUGA

Municipal Class Environmental Assessment Study for Mavis Road

Study Commencement Survey

The City of Mississauga and Region of Peel have initiated a Class Environmental Assessment Study for Mavis Road from Courtneypark Drive West to Ray Lawson Boulevard. The study is being undertaken to examine how traffic operates both now and in the future, and will identify the transportation improvements that may be required to address capacity deficiencies and multi-modal transportation needs.

The purpose of this Survey is to gather input from the public on any aspect of the study area which you consider to be important or of concern. Your input is greatly appreciated.

Please take a few minutes to complete this Survey. You may do so by:

A) Filling in this form and submitting a copy via:

- Email: mavisroadea@mmm.ca
- Fax: 905-823-8503; or

B) Completing the survey online at:

- www.mississauga.ca/mavisroadea

1. My property/interest is: (please check all that apply)

- | | |
|---|---|
| <input type="checkbox"/> Access onto and off Mavis Road | <input type="checkbox"/> Residential Property |
| <input type="checkbox"/> Travel along Mavis Road | <input type="checkbox"/> Commercial/Industrial Property |
| <input type="checkbox"/> General Interest | <input type="checkbox"/> Other _____ |

2. Do you live in Mississauga / Peel Region? Do you work in Mississauga / Peel Region?

3. Please tell us how you use the corridor:

	Tell us about your trip (where are you travelling to / from?)	What time of day?	How is your travelling experience? Could it be improved?
Drive			
Cycle/Walk			
Transit			
Other			

Notice of Collection of Personal Information:

Personal information is collected under the authority of the Environmental Assessment Act and will be used in the assessment process. With exception of personal information, all comments shall become part of the public records. Questions about this collection should be directed to the Project Manager listed in the notice.

4. How often do you use Mavis Road, within the study area between Courtneypark Drive West and Ray Lawson Boulevard?

[] Daily [] Weekly [] Monthly [] Rarely

5. What elements / aspects are most important to you? (check all that apply)

- ☐ Provision of cycling facility.
- ☐ Improved pedestrian connections
 • If so, where?
- ☐ No changes to the corridor
- ☐ Improved landscaping (e.g. street trees, shrubs etc.)
- ☐ Better transit stop locations and/or facilities (e.g. bus shelters)
 • If so, where?
- ☐ Increased road capacity and improved travel time
- ☐ Access to homes and businesses
- ☐ Street lighting
- ☐ Traffic signal timing

Please share any other comments you may have.

Please complete the following information for our records (**Please Print**):

Name: _____

Address: _____

Email: _____

Information from the comment sheet will be tabulated and incorporated as part of the study documentation. Please send us your comments via regular mail, fax or email **no later than June 1, 2016**.

Mavis Road Class EA
Notice of Study Commencement Summary

The following summarizes the Notice of Study Commencement notification timing and logistics.

1. The City notified relevant City of Mississauga staff via email on **April 7, 2016** (City staff per attached mailing list). Peel Region staff coordinated internal notifications.
2. The City notified City of Mississauga, City of Brampton and Peel Region Councillors of the study via email (attached) on Thursday **April 14, 2016** (Councillors per attached mailing list).
3. The City placed the Notice of Study Commencement in ***The Mississauga News*** and ***The Brampton Guardian*** to run on **Thursday April 21 and Thursday April 28, 2016**.
4. The City posted the Notice of Commencement and Online Survey www.mississauga.ca/mavisroadea on **Monday April 18, 2016**. The Online Survey requests that surveys be completed by June 1, 2016.
5. The City mailed a Notice of Commencement letter and Response Form to Aboriginal communities and organizations on Monday **April 18, 2016** (per attached mailing list). Aboriginal communities and organizations were compiled using the contact list from a recent Class EA within Peel Region, which had previously been generated using the ATRIS database and confirmed by Ministry of Aboriginal Affairs.
6. MMM sent the Notice of Commencement and Survey Form to all property owners within the defined catchment area (within City of Brampton and City of Mississauga) on **Monday April 18, 2016**. The Survey requests a response by June 1, 2016.
7. MMM sent the Notice of Commencement and Response Form to Technical Agencies on **April 18, 2016** (per attached list). Materials were sent via email only, where email addresses were known. All other notice/response forms were sent by regular mail on **April 19, 2016**. Agencies were identified from previous City of Mississauga EA studies and from the most recent MOECC Government Review Team list.
8. MMM sent the Notice of Commencement and Response Form to Utilities on **April 19, 2016**. The Response Form requests response by June 1, 2016.

CITY OF MISSISSAUGA
NOTICE OF STUDY COMMENCEMENT
Municipal Class Environmental Assessment Study
for Mavis Road

The City of Mississauga, in partnership with the Region of Peel, has initiated a Class Environmental Assessment (Class EA) study for Mavis Road from Courtneypark Drive West, in the City of Mississauga, to Ray Lawson Boulevard, in the City of Brampton, to address existing and future 'multi-modal' transportation conditions.

Within the City of Mississauga, Mavis Road consists of four travel lanes, raised median, sidewalks on both sides and some sections of multi-use trails. Within the City of Brampton, Mavis Road is a Regional Road (18) and has recently been widened to six lanes from Steeles Avenue to south of Ray Lawson Boulevard, with a multi-use path on the west side and sidewalk on the east side.

This Class EA study will examine how traffic operates both now and in the future, and will identify ways to address current and future needs to best serve a variety of users including motorists, transit users, pedestrians and cyclists.

The study will be conducted as a Schedule C project under the *Municipal Class Environmental Assessment* (October 2000, as amended in 2015), which is approved under the Ontario Environmental Assessment Act. Through this planning process, the Project Team will define the problem, evaluate alternative solutions, determine a preferred design, examine impacts on the social, cultural and natural environments and identify measures to mitigate those impacts, all in consultation with regulatory agencies and the public. At the end of the study, an Environmental Study Report (ESR) documenting the entire study process will be available for public review.

Public participation is an important part of the Class EA process. Throughout the study, the City will make contact with various agencies and members of the community, and consider their opinions as part of any decisions that are made. Two Public Information Centres (PICs) will be held to present study information and enable the public to meet the project team and share feedback. Details regarding the PICs will be advertised publicly as the study progresses.
