
Project: Park 459 Summary of Input Received by the City via e-mail

Date: August 26, 2015

Summary of emails received by the Project

From May 25 to July 31, 2015, more than 170 emails were received at the Park 459 project email account (ninthline.park459@mississauga.ca). These emails discussed approximately 35 different park/community centre features and activities as summarized below.

The top features identified were:

- Swimming pool
- Leash-free area
- Natural areas (wilderness, natural heritage, trees)
- Running track; and
- Tennis courts

Park features that were suggested in the emails included an auditorium/amphitheatre, baseball diamond, splash pad, basketball court, beach volleyball court, squash court, outdoor exercise equipment, toboggan hill, picnic area, rugby pitch as well as facilities to accommodate skiing (downhill and cross country) and hockey (ice, indoor, field and ball).

Features identified for the proposed community centre included: space/hall for social gatherings, meeting rooms, day care services, library, and employment and immigration services

There was also a targeted request by many residents for a cricket field, senior fitness facilities and a meeting space large enough to accommodate 2,000+ people for religious, social and cultural gatherings/celebrations.
