

Unlit Soccer Field Sizes

Mississauga will transition its soccer field inventory to new name and size categories for the 2017 season that coincide with standard field-size ranges recently adopted by Ontario Soccer Association – you may have already noticed new names on your 2017 field permit(s). The transition mostly affects unlit fields. For reference, the chart below represents what name and size each field is to be lined as well as corresponding goal size at each type (excluding school fields and fields closed for 2017).

New soccer goals will also be provided at fields sized 7V7 and larger – exception is 5V5 size fields which will no-longer house City-provided goals – clients may use cones or ‘pop-up’ goals at these sites. Clients are also reminded that City provides goal mesh at artificial turf surfaces only.
