Theft from auto remains a popular crime in Mississauga. What many people do not realise is that most of these are opportunistic, and therefore, easily preventable. The time and money spent on repairs, or replacement of stolen goods can easily be avoided by following some simple tricks and tips.

### **Here are some tips to avoid thefts from your vehicle:**

- Refrain from keeping valuables in your vehicle at all times. If unavoidable, NEVER leave anything on display when you leave your vehicle unattended.
- When you are parking your car, make sure it is always locked. If you are parking at home, it is recommended you keep it in your garage (which should also be locked).
- Consider installing an alarm or an anti-theft device on your vehicle. Alarms deter thieves from not only stealing items from your vehicle, but also from stealing the vehicle itself. Please note that even if you have an alarm installed, abstain from leaving any valuable items in your vehicle.
- If you, or someone you know, has been a target of this crime, please report to the police, and alert your neighbours immediately!
