

Official Flag Placement – City Marinas

The City of Mississauga’s Marinas adhere to Canada’s official flag placement protocol by organizing flags as follows:

1. The National Flag of Canada should be on the gaff as that is the senior position.
2. On the right (starboard) when facing the gaff is the flag of other sovereign nations, in our case, the United States flag.
3. On the left (port) when facing the gaff—would be the provincial flag, i.e. the Ontario flag.
4. On the highest point of the mast, would be the City’s flag.

The illustration above hopes to visually depict this placement.
