

**CITY OF MISSISSAUGA**  
**CLASS ENVIRONMENTAL ASSESSMENT STUDY AND PRELIMINARY DESIGN OF**  
**Downtown Mississauga Road Improvements**  
**NOTICE OF STUDY COMMENCEMENT & PUBLIC INFORMATION CENTRE**

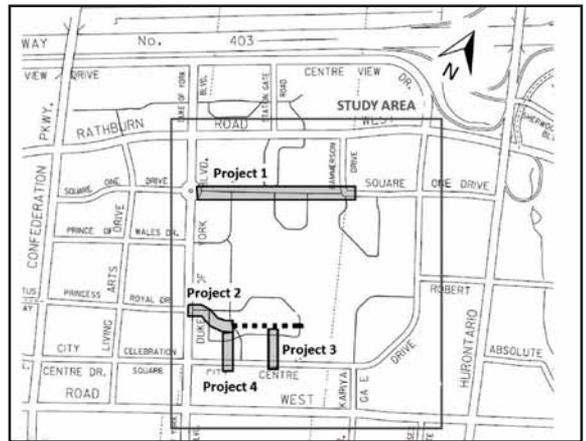

**THE STUDY:**

City of Mississauga has initiated a Class Environmental Assessment, including preliminary design, for downtown Mississauga road improvements. The overall study area is bounded by Rathburn Road West to the north, Burnhamthorpe Road to the south, City Centre Drive/Kariya Gate to the east and Duke of York Boulevard to the west. Within the study area, there are four potential road improvement projects:

- Project 1 - Square One Drive from Duke of York Boulevard to Hammerson Drive
- Project 2 - Extension of Princess Royal Drive from Duke of York Boulevard to the proposed North-South Road
- Project 3 - Proposed Main Street from City Centre Drive to the proposed private extension of Princess Royal Drive
- Project 4 - Proposed North-South Road from City Centre Drive to the proposed extension of Princess Royal Drive

Project 1 is a section of Square One Drive which currently serves as a private road access to the Square One Shopping Centre. The City's Official Plan and moreover, *the Downtown21 Master Plan* proposes that Square One Drive ultimately be a two-way minor collector street, continuous from Hurontario Street to Rathburn Road West. The proposed road improvements will focus on creating a more multi-modal street that will suit all users, including pedestrians, cyclists, transit riders and drivers.

Project 2, Project 3 and Project 4 are newly planned city roads that will facilitate a much improved pedestrian, cyclist and traffic environment in the southwest corner of the Square One Shopping Centre as shown in the study area.

**PROCESS:**

The study will follow a comprehensive planning and design process in order to recognize and accommodate the multi-modal transportation needs of Mississauga's Downtown and its relationship to future land use to support the Downtown21 Master Plan, the City's Official Plan and the new Downtown Core Local Area Plan/MOPA8 (under appeal).

The study is being carried out in accordance with the Master Plan process outlined in the *Municipal Class Environmental Assessment* (October 2000, as amended in 2007 and 2011), which is approved under the Ontario Environmental Assessment Act.

**PUBLIC CONSULTATION:**

A key component is stakeholder consultation (public, landowners and regulatory agencies). The Public Information Centre (PIC) will be held to provide an opportunity to review the study scope, and discuss issues related to the project including alternative solutions, evaluation criteria, and environmental impacts and mitigation measures; as such, you are invited to the PIC scheduled for the time and date below:

**Date: Wednesday, June 25, 2014**  
**Time: 5:30 p.m. to 8:00 p.m.**  
**Venue: Mississauga Civic Centre, Great Hall**  
**300 City Centre Drive, Mississauga, ON**

The PIC will be a drop-in format with displays illustrating a list of alternative solutions and the preliminary identification of a preferred master plan solution. There will be an opportunity to meet with the Project Team, review material and discuss the project. City staff and the project consultant will be on hand to answer questions.

**COMMENTS INVITED:**

If you would like to provide us with your comments, require additional information, or would like to be placed on the project mailing list to be notified about upcoming public meetings, please contact:
