# COMMUNITY WORKSHOP REGISTRATION

## McLaughlin Road Environmental Assessment Study

### THE STUDY:

The City of Mississauga is completing a Class Environmental Assessment (Class EA) Study and Preliminary Design for McLaughlin Road from Bristol Road West to Britannia Road West.

Following a context sensitive approach, McLaughlin Road is proposed to be four travel lanes including a shared cycling facility, improved sidewalk connectivity, buried hydro lines, tree planting and landscaping and new noise barriers. The preferred design also includes edge restoration along the Britannia Farm woodlot, and roadway design features intended to slow traffic speed. The preferred design plans are available for viewing on the project website at:

### PUBLIC CONSULTATION OPPORTUNITY:

Public consultation is a vital component to this study. Two Public Information Centres were previously held. The next consultation opportunity is to register for an upcoming Community Workshop being planned for the **morning of Saturday May 9, 2015**.

The purpose of this Workshop is to update members of the public and stakeholders on the study progress, and to present and discuss elements of the Preferred 4-lane Alternative and Mitigation Plan. Project Team members will also be able to provide responses to specific aspects of the project.

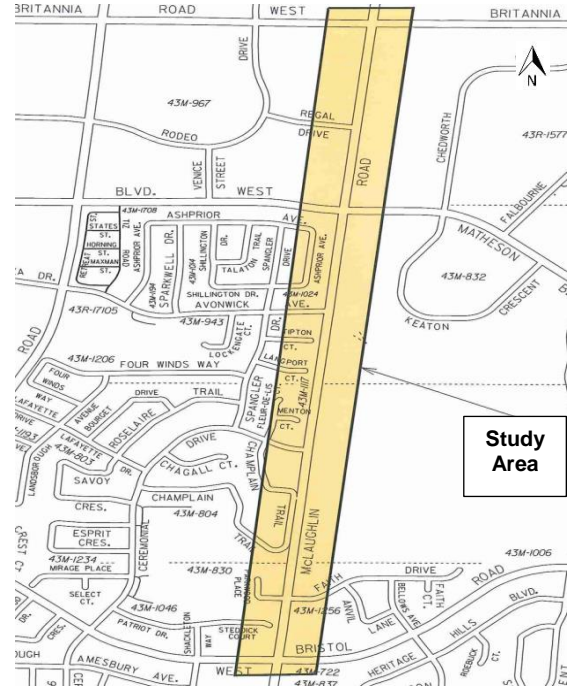

The time and location of this upcoming Community Workshop are currently being finalized. Those who register for the Workshop will be notified of the final arrangements. In order to best prepare for the upcoming workshop, those interested in attending should notify the Project Team via the following contact information by **Friday April 17, 2015**:
