Subject: MNCFN Response to the Municipal Class Environmental Assessment Study of the Extension of Square One Drive Notification of Public Information Centre #1

Dear Ms. Glofcheskie,

Thank you for the notification sent to The Mississaugas of the New Credit First Nation (MNCFN) regarding *the Municipal Class Environmental Assessment Study of the Extension of Square One Drive Notification of Public Information Centre #1*. We have reviewed the document you have provided and determined that, at this time, MNCFN has a low level of concern about the project. *Please see the attached letter for more information.*

Respectfully, we ask that you immediately notify MNCFN if there are any changes to the project as they may impact MNCFN's interests. Additionally, MNCFN requests a copy of all associated environmental and/or archaeological reports. These can be electronic copies, if you prefer. Furthermore, MNCFN employs Field Liaison Representatives who must be on location whenever any fieldwork for environmental

and/or archaeological assessments is undertaken. If additional work is scheduled, please notify us as soon as possible so that we may work together to discuss and arrange for MNCFN's participation.

Sincerely,

Fawn D. Sault

City of Mississauga Project Manager
201 City Centre Dr. Suite 800
Mississauga, ON. L5B 2T4
dana.glofcheskie@mississauga.ca

Dear Ms. Glofcheskie,

We are the Mississaugas of the New Credit First Nation (MNCFN), the descendants of the Mississaugas of the River Credit. Our traditional territory extends from the Rouge River Valley in the east, across to the headwaters of the Thames River, down to Long Point on Lake Erie, and back along the shores of Lake Erie, the Niagara River, and Lake Ontario to the Rouge River Valley. It encompasses present-day London, Hamilton, and Toronto, as well as our communal lands. Our traditional territory has defined and sustained us as a First Nation for countless generations, and must continue to do so for all our generations to come.

Thank you for your notification on *the Municipal Class Environmental Assessment Study for the Extension of Square One Drive Notification of Public Information Centre #1* dated May 31, 2016. The Mississaugas of the New Credit First Nation (MNCFN) has various treaty rights across its traditional territory, including the area contemplated by your project. For further information, please see our website, <http://www.newcreditfirstnation.com/>. MNCFN continues to exercise treaty rights which include, but are not limited to, rights to harvest, fish, trap and gather species of plants, animals and insects for any purpose including food, social, ceremonial, trade and exchange purposes. The MNCFN also has the right to use the water and resources from the rivers, creeks and lands across the MNCFN traditional territory.

At this time, MNCFN *does not* have a high level of concern regarding the proposed project and therefore, by way of this letter, approves the continuation of this project. However, MNCFN requests that you continue to notify us about the status of the project. **In addition, we respectfully ask you to immediately notify us if there are any changes to the project as they**

may impact MNCFN's interests and that you please provide us with a copy of all associated environmental and archaeology reports. This includes, but is not limited to changes related to the scope of work and expected archaeological and environmental impacts.

Additionally, MNCFN employs Field Liaison Representatives ("FLRs") to act as official representatives of the community and who are answerable to MNCFN Chief and Council through the Department of Consultation and Accommodation. The FLRs' mandate is to ensure that MNCFN's perspectives and priorities are considered in the field and to enable MNCFN to provide timely, relevant, and meaningful comment on the Project. Therefore, **it is MNCFN policy that FLRs are on location whenever any fieldwork for environmental and/or archaeological assessments are undertaken.** It is expected that the proponent will cover the costs of this FLR participation in the fieldwork. Please also provide the contact information of the person, or consultant, in charge of organizing this work so they may facilitate the participation of the MNCFN FLRs.

Nothing in this letter shall be construed as to affect the Aboriginal or Treaty rights and hence shall not limit any consultation and accommodation owed to MNCFN by the Crown or any proponent, as recognized by section 35 of the Constitution Act, 1982, of any other First Nation.

MNCFN reserves the right in relation to any development project or decision, to decide whether it supports a project and to: comment to regulators, participate in regulatory processes and hearings, seek intervener funding or status, or to challenge and seek remedies through the courts.

MNCFN expects all proponents to act according to the following best practices:

- Engage early in the planning process, before decisions are made
- Provide information in meaningful and understandable formats.
- Convey willingness to transparently describe the project and consider any MNCFN concerns.
- Recognize the significance of cultural activities and traditional practices of the MNCFN
- Demonstrate a respect for MNCFN knowledge and uses of land and resources.
- Understand the importance of youth and elders in First Nation communities.
- Act with honour, openness, transparency and respect.
- Be prepared to listen and allow time for meaningful discussion.

Sincerely,

Fawn D. Sault

Re: **City of Mississauga**
Municipal Class Environmental Assessment Study for the extension of Square One Drive
Response to Notice of Study Commencement

Dear Ms. Sault,

Thank you for your response (dated May 24, 2016) to the Notice of Study Commencement for the above-noted study, and for advising that the Mississaugas of the New Credit First Nation (MNCFN) does not have a high level of concern regarding this study. In response to the items noted in your letter, please see below:

	COMMENT	RESPONSE
1	At this time, MNCFN does not have a high level of concern regarding the proposed project and therefore, by way of this letter, approves the continuation of this project. However, MNCFN requests that you continue to notify us about the status of the project.	The City of Mississauga will update MNCFN regarding this study on a regular basis.
2	In addition, we respectfully ask you to immediately notify us if there are any changes to the project as they may impact MNCFN's interests and that you please provide us with a copy of all associated environmental and archaeology reports. This includes, but is not limited to changes related to the scope of work and expected archaeological and environmental impacts.	The City of Mississauga will update MNCFN if there are any changes to the project that may impact MNCFN's interests. It should be noted that no adverse archaeological and environmental impacts are anticipated at this time.

COMMENT	RESPONSE
<p>3 In addition, we respectfully ask you to immediately notify us if there are any changes to the project as they may impact MNCFN's interests and that you please provide us with a copy of all associated environmental and archaeology reports. This includes, but is not limited to changes related to the scope of work and expected archaeological and environmental impacts.</p>	<p>The City of Mississauga intends to complete the following environmental and archaeological reports during the course of this study:</p> <ul style="list-style-type: none"> • Natural Environment Assessment • Tree Inventory and Assessment • Phase 1 Environmental Assessment • Stage 1 Archaeological Assessment • Built Heritage Memo • Noise and Vibration Assessment • Air Quality Impact Assessment <p>It should be noted that a Stage 2 Archaeological Assessment may also be completed as part of this study, depending on the outcome of the Stage 1 Archaeological Assessment.</p>
<p>4 Therefore, it is MNCFN policy that FLRs are on location whenever any fieldwork for environmental and/or archaeological assessments are undertaken. It is expected that the proponent will cover the costs of this FLR participation in the fieldwork. Please also provide the contact information of the person, or consultant, in charge of organizing this work so they may facilitate the participation of the MNCFN FLRs.</p>	<p>The City of Mississauga will contact the MNCFN prior to completing any environmental or archaeological fieldwork so that MNCFN Field Liaison Representatives may be present. However, it should be noted that no formal fieldwork is anticipated to be required for the assessments listed in the response to comment 3, except as noted below:</p> <ul style="list-style-type: none"> • Regarding the Tree Inventory and Assessment Report, a field assessment of existing trees within and adjacent to the study area was completed on Tuesday, April 26, 2016 and Wednesday, April 27, 2016. • Regarding the potential Stage 2 Archaeological Assessment, formal field work will be required should this assessment be deemed necessary by the results of the Stage 1 Archaeological Assessment.
<p>5 Therefore, it is MNCFN policy that FLRs are on location whenever any fieldwork for environmental and/or archaeological assessments are undertaken. It is expected that the proponent will cover the costs of this FLR participation in the fieldwork. Please also provide the contact information of the person, or consultant, in charge of organizing this work so they may facilitate the participation of the MNCFN FLRs.</p>	<p>The City of Mississauga will facilitate any required participation by MNCFN FLRs in environmental and/or archaeological fieldwork. Contact information for the City's representative is as follows:</p> <p style="padding-left: 40px;">Dana Glofcheskie, P.Eng. Project Manager City of Mississauga 201 City Centre Dr, Suite 800 Mississauga, ON L5B 2T4 (905) 615-3200, ext. 8243 dana.glofcheskie@mississauga.ca</p>

Please contact the undersigned if you have any further questions regarding this project.

Dear Travis Brown:

Thank you for the information you sent to Hiawatha First Nation regarding Notice of study commencement and MCEAS for the extension of Square One Drive which is being proposed within Hiawatha First Nation's Traditional and Treaty Territories. Hiawatha First Nation appreciates that the City of Mississauga and Stantec recognizes the importance of First Nations Consultation and that your office is conforming to the requirements within the Duty to Consult Process. The correspondence Hiawatha First Nation has received is not considered meaningful consultation but rather information sharing.

As per the Hiawatha First Nation Consultation Protocol, your proposed project is deemed to have little, if any, impact on Hiawatha First Nation's traditional territory and/or rights. Please keep us apprised of any updates, archaeological findings, and/or of any environmental impacts, should they occur. Hiawatha First Nation requests you contact us if archaeological artifacts are found as we require our trained archaeological liaisons be present at the archaeological sites during the assessments. We also ask that you forward any archaeological reports to Hiawatha First Nation as they are completed. Any maps pertaining to the project should be sent to Hiawatha First Nation in a shape file.

Hiawatha First Nation reserves the right to provide additional comment should further development result in additional potential impact on our traditional territory and rights. Please be aware that while we request to be kept apprised throughout all phases of this project, we may not always have representation at all stakeholders meetings.

Further correspondence may be directed to my attention at the mailing address above or the e-mail address below.

Sincerely,

Tom Cowie

Markham, Ontario L3R 0B8

Dear Travis Brown,

**RE: City of Mississauga, Municipal Class Environmental Study for the Extension of Square One Drive. Notice of Study Commencement.
File No. 165011005**

I would like to acknowledge receipt of your correspondence, which was received on 4/15/2016 regarding the above noted project.

As you may be aware, the area in which your project is proposed is situated within the Traditional Territory of Curve Lake First Nation. Our First Nation's Territory is incorporated within the Williams Treaties Territory and is the subject of a claim under Canada's Specific Claims Policy. We strongly suggest that you provide Karry Sandy-Mackenzie, Williams Treaty First Nation Claims Coordinator, 8 Creswick Court, Barrie, ON L4M 2S7, with a copy of your proposal as your obligation to consult to also extend to the other First Nations of the Williams Treaties.

Although we have not conducted exhaustive research nor have we the resources to do so, Curve Lake First Nation Council is not currently aware of any issues that would cause concern with respect to our Traditional, Aboriginal and Treaty rights.

Please note that we have particular concern for the remains of our ancestors. Should excavation unearth bones, remains or other such evidence of a native burial site or any Archaeological findings, we must be notified without delay. In the case of a burial site, Council reminds you of your obligations under the Cemeteries Act to notify the nearest First Nation Government or other community of Aboriginal people which is willing to act as a representative and whose members have a close cultural affinity to the interred person. As I am sure you are aware, the regulations further state that the representative is needed before the remains and associated artifacts can be removed. Should such a find occur, we request that you contact our First Nation immediately.

Curve Lake First Nation also has available, trained Archaeological Liaisons who are able to actively participate in the archaeological assessment process as a member of a field crew, the cost of which will be borne by the proponent.

If any new, undisclosed or unforeseen issues should arise, that has potential for anticipated negative environmental impacts or anticipated impacts on our Treaty and Aboriginal rights we require that we be notified regarding these as well.

Thank you for recognizing the importance of consultation and respecting your duty to consult obligations as determined by the Supreme Court of Canada.

Should you have further questions or if you wish to hire a liaison for a project, please feel free to contact our Lands and Resources Consultation Liaison Melissa Dokis at MelissaD@curvelake.ca, or by phone at 705-657-8045.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Phyllis Williams".

**Re: City of Mississauga
Municipal Class Environmental Assessment Study for the extension of Square One Drive
Notification of Public Information Centre #1**

Dear *insert*,

The City of Mississauga has recently initiated a Class Environment Assessment (Class EA), including preliminary design, for the extension of Square One Drive from Rathburn Road West to Confederation Parkway. This Class EA is being undertaken to further several important initiatives. The City of Mississauga has identified the need to improve access to, from, and within both downtown Mississauga and areas beyond. Additionally, the City of Mississauga wishes to support the development of a multi-modal transportation network and encourage opportunities to travel by walking, cycling, and transit. Finally, the City of Mississauga has prioritized the creation of a finer street grid in downtown Mississauga, with an urban scale, new routing options for local trips, and better access to transit.

This study was initiated in March 2016 and is being undertaken in accordance with the planning and design process for Schedule 'C' projects, as outlined in the Municipal Class Environmental Assessment document (October 2000, amended in 2015), which is approved under the Ontario Environmental Assessment Act. This study is following a comprehensive, sound, and open planning process, during which the overall impact of the extension of Square One Drive on the social, cultural, and natural environments is being analyzed. A key component of the study is consultation with interested stakeholders, including both members of the community and reviewing agencies.

The first Public Information Centre for this study has been scheduled to present the project and review the study scope, as well as discuss issues such as alternative solutions, evaluation criteria, and the preferred alternative solution. A notice of the PIC has also been advertised in the Mississauga News. The first PIC will be held as follows:

Thursday, June 22, 2016, 5:30 – 8:00pm

The Great Hall, Mississauga City Hall, 300 City Centre Dr, Mississauga, ON

If you have any questions or require additional information, please contact the Project Team at squareoneclassea@stantec.com.

Sincerely,

Dana Glofcheskie, P.Eng.
City of Mississauga Project Manager

**Re: City of Mississauga
Municipal Class Environmental Assessment Study for the extension of Square One Drive
Notification of Public Information Centre #2**

Dear *insert*,

In March 2016, the City of Mississauga initiated a Class Environment Assessment (Class EA), including preliminary design, for the extension of Square One Drive from Rathburn Road West to Confederation Parkway. This Class EA study has been undertaken to further several important initiatives. The City of Mississauga has identified the need to improve access to, from, and within both downtown Mississauga and areas beyond. Additionally, the City of Mississauga wishes to support the development of a multi-modal transportation network and encourage opportunities to travel by walking, cycling, and transit. Finally, the City of Mississauga has prioritized the creation of a finer street grid in downtown Mississauga, with an urban scale, new routing options for local trips, and better access to transit.

This study has been undertaken in accordance with the planning and design process for Schedule 'C' projects, as outlined in the Municipal Class Environmental Assessment document (October 2000, amended in 2015), which is approved under the Ontario Environmental Assessment Act. This study is following a comprehensive, sound, and open planning process, during which the overall impact of the extension of Square One Drive on the social, cultural, and natural environments is being analyzed. A key component of the study is consultation with interested stakeholders, including both members of the community and reviewing agencies.

Public Information Centre (PIC) #1 for this study took place on Wednesday, June 22, 2016. Information was presented regarding the study scope and the various Alternative Solutions under consideration, as well as the evaluation of those solutions and details of the Preliminary Preferred Alternative Solution. Since PIC #1, the Project Team has developed various Alternative Design Concepts based on the Preliminary Preferred Alternative Solution, and continued consultation with both reviewing agencies and affected stakeholders. Specifically, Credit Valley Conservation has confirmed that the extension of Square One Drive would have no impact to any environmental features under their jurisdiction (including flood plains, watercourses, shorelines, wetlands, or valley slopes). Further, an ISA-certified Arborist has inventoried and assessed 157 existing trees located within and adjacent to the study area; most are in good condition, and every effort will be made to

incorporate as many as possible into the future preliminary design. Additionally, Stantec is conducting a Stage 1 Archaeological Assessment as part of this study; further information on this assessment will be provided at a later date.

The Public Information Centre #2 for this study has been scheduled to review both progress since PIC #1 and the Alternative Design Concepts developed for the extension of Square One Drive. The Project Team's evaluation of those concepts and details of the selected Preliminary Preferred Design Alternative will also be presented. More information on PIC #2 can be found in the attached Notice of Public Information Centre, which has also been advertised in the Mississauga News. PIC #2 has been scheduled as follows:

Thursday, November 17, 2016, 6:00 – 8:00pm
The Great Hall, Mississauga City Hall, 300 City Centre Dr, Mississauga, ON

If you have any questions or require additional information, please contact the Project Team at squareoneclassea@stantec.com.

Sincerely,

Dana Glofcheskie, P.Eng.

**Re: City of Mississauga
Municipal Class Environmental Assessment Study for the extension of Square One Drive
Study Update**

Dear (insert),

In March 2016, the City of Mississauga (the City) initiated a Class Environment Assessment, including preliminary design, for the extension of Square One Drive from Rathburn Road West to Confederation Parkway (the study). The study is being undertaken to further several important initiatives. The City has identified the need to improve access to, from, and within both downtown Mississauga and areas beyond. Additionally, the City wishes to support the development of a multi-modal transportation network and encourage opportunities to travel by walking, cycling, and transit. Finally, the City has prioritized the creation of a finer street grid in downtown Mississauga, with an urban scale, new routing options for local trips, and better access to transit.

The study is being undertaken in accordance with the planning and design process for Schedule 'C' projects, as outlined in the Municipal Class Environmental Assessment document (October 2000, amended in 2015), which is approved under the Ontario Environmental Assessment Act. The study is following a comprehensive, sound, and open planning process, during which the overall impact of the extension of Square One Drive on the social, cultural, and natural environments is being analyzed. A key component of the study is consultation with interested stakeholders, including both members of the community and reviewing agencies.

To date, the City has conducted two Public Information Centres as part of the study. Public Information Centre (PIC) #1 took place on Wednesday, June 22, 2016. Information was presented regarding the study scope and the various Alternative Solutions under consideration, as well as the evaluation of those solutions and details of the Preliminary Preferred Alternative Solution. PIC #2 took place on Thursday, November 17, 2016. Information was presented regarding progress since PIC #1, the Alternative Design Concepts developed for the extension of Square One Drive, the Project Team's evaluation of those concepts, and details of the selected Preliminary Preferred Design Alternative.

Since PIC #2, the Project Team has continued to consult with both stakeholders and reviewing agencies, as well as advance various supporting assessments to analyze the impact on the social, cultural, and natural environments. Specifically related to the assessment of impacts on the cultural environment, the City wishes to inform you of the following:

- Stantec Consulting Ltd. (Stantec), on behalf of the City, is presently completing a **Stage 1 Archaeological Assessment**. To determine the need for this assessment, Stantec completed the “Criteria for Evaluating Archaeological Potential” checklist published by the Ministry of Tourism, Culture and Sport. Attached is a copy of the completed checklist, for your information.
- Stantec has recently identified the need to complete a **Stage 2 Archaeological Assessment**. Completion of this assessment will involve field work, which is currently anticipated to occur during the **week of April 10, 2017**. The completed Stage 2 Archaeological Assessment Report can be provided upon request.

If you have any questions or require additional information, please contact the Project Team at squareoneclassea@stantec.com.

Sincerely,

Dana Glofcheskie, P.Eng.
City of Mississauga Project Manager
