**DATE:** October 15, 2013

**TO:** Mayor and Members of Council  
Meeting Date: October 30, 2013

**FROM:** Martin Powell, P. Eng.  
Commissioner of Transportation and Works

**SUBJECT:** **Lower Driveway Boulevard Parking  
Bristol Road West (Ward 5)**

---

**RECOMMENDATION:** That a by-law be enacted to amend By-law 555-2000, as amended, to implement lower driveway boulevard parking between the curb and sidewalk, at any time, on Bristol Road West between Swiftcurrent Trail and McLaughlin Road.

**BACKGROUND:** The Transportation and Works Department has received a request through Councillor Crombie's office to implement lower driveway boulevard parking on Bristol Road West between Swiftcurrent Trail and McLaughlin Road. A sidewalk is present on both sides of Bristol Road West and lower driveway boulevard parking between the curb and sidewalk is currently prohibited.

**PRESENT STATUS:** To determine the level of support for lower driveway boulevard parking between the curb and sidewalk, a parking questionnaire was distributed to the residents of Bristol Road West on September 18, 2013.

Seventy-seven (77) questionnaires were delivered and 22 (31%) were returned; 18 (82%) supported the implementation of lower driveway boulevard parking and 4 (18%) were opposed.

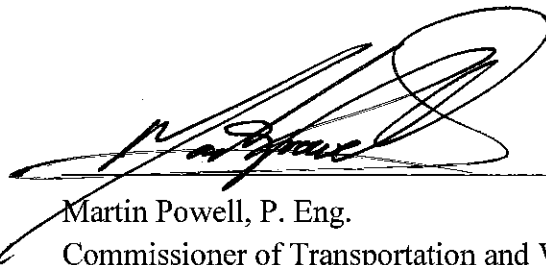

Since greater than 66% of the total respondents support lower driveway boulevard parking, the Transportation and Works Department recommends implementing lower driveway boulevard parking between the curb and sidewalk, at any time, on both sides of Bristol Road West between Swiftcurrent Trail and McLaughlin Road.

The Ward Councillor supports the proposal for lower driveway boulevard parking.

**FINANCIAL IMPACT:** Costs for the sign installations can be accommodated in the 2013 Current Budget.

**CONCLUSION:** Based on the results of the questionnaire, the Transportation and Works Department supports lower driveway boulevard parking between the curb and sidewalk, at any time, on both sides of Bristol Road West between Swiftcurrent Trail and McLaughlin Road.

**SUBJECT:** **Temporary Road Closure –  
Mississauga Road from Erin Centre Boulevard to Reid Drive  
(Ward 11)**

---

**RECOMMENDATION:** That a by-law be enacted to implement the temporary road closure of Mississauga Road from Erin Centre Boulevard to Reid Drive commencing at 9:00 a.m. on Friday, November 1, 2013 and ending at 5:00 p.m. on Monday, November 4, 2013.

**BACKGROUND:** The Transportation and Works Department is in receipt of a request from the Canadian Pacific Railway Company (CP Rail) to have a road closure at the railway crossing on Mississauga Road in the City of Mississauga.

The road closure is requested in order to complete repairs to the railway crossing on Mississauga Road between Erin Centre Boulevard to Reid Drive starting on Friday, November 1, 2013 for a period of four days.

**COMMENTS:** The CP Rail crossing on Mississauga Road is in need of repair. CP Rail has identified a track defect in both tracks at the above noted location. In order to undertake the repairs, CP Rail requires the roadway to be closed to facilitate the removal and replacement of the

railway tracks, ties, rubber panels and repaving of the asphalt approaches.

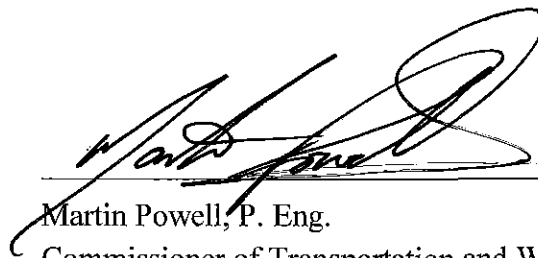

CP Rail will supply and install the appropriate closure signage to notify the public of the closures. The Transportation and Works Department will notify all emergency services, 311 Customer Service Centre, Student Transportation, GO Transit, and Mississauga Transit.

The Ward Councillor supports the proposed road closure.

**FINANCIAL IMPACT:** Not applicable.

**CONCLUSION:** In recognition of the need to complete the repairs to the CP Rail crossing on Mississauga Road, the Transportation and Works Department supports the closure of Mississauga Road from Erin Centre Boulevard to Reid Drive commencing at 9:00 a.m. on Friday, November 1, 2013 and ending at 5:00 p.m. on Monday, November 4, 2013.

**DATE:** October 15, 2013

**TO:** Mayor and Members of Council  
Meeting Date: October 30, 2013

**FROM:** Gary Kent  
Commissioner of Corporate Services and Chief Financial Officer

**SUBJECT:** **Tax Arrears Extension Agreement (Ward 4)**  
**Roll No. 05-040-155-01765-0000 – 285 Wallenberg Crescent**  
**Lawrence Mpamugo and Kathleen Mpamugo and Delegation of**  
**Authority to enter into Tax Extension Agreements**

- RECOMMENDATION:**
1. That an extension to the Tax Arrears Extension Agreement with the owners of 285 Wallenberg Crescent executed on October 26, 2011 be granted and that the Director, Revenue and Materiel Management be authorized to execute an Amendment to Tax Arrears Extension Agreement dated October 15, 2013 for the subject property.
  2. That a by-law be enacted to delegate to the Director, Revenue and Materiel Management or Manager, Revenue and Taxation the authority, in future to enter into an extension agreement with the owner of the land, the spouse of the owner, a mortgagee or a tenant in occupation of the land, extending the period of time in which the cancellation price is to be paid if such authority is exercised prior to the expiry of the one-year period following the date of the registration of a tax arrears certificate on the property and in a form satisfactory to Legal Services.

**BACKGROUND:**

Section 378 of the *Municipal Act* allows a municipality, by a by-law passed after the registration of the tax arrears certificate and before the expiry of the one-year period, to authorize an extension agreement with the owner of the land, extending the period of time in which the cancellation price is to be paid.

The City entered into an extension agreement with the owners of 285 Wallenberg Crescent on October 26, 2011. The agreement provided for regular payments of the tax arrears with payment of the balance of the cancellation price being due on November 1, 2013.

**COMMENTS:**

285 Wallenberg Crescent Extension Agreement

The property at 285 Wallenberg Crescent is owned by Lawrence Mpamugo and Kathleen Mpamugo. The City entered into an extension agreement with the owners on October 26, 2011 which required the owners to make monthly payments of \$750, pay the interim and final taxes each year as billed and pay the balance of the cancellation price by November 1, 2013. The owners have adhered to the terms of the agreement to date. Property taxes including penalties and interest in the amount of \$18,409.77 remain outstanding.

The owners have requested an extension of the agreement to November 1, 2014. Legal Services has confirmed that the City has the ability to amend the end date of the Agreement provided Council approves it before the expiry of the existing agreement on November 1, 2013. There are no other changes to the terms of the agreement.

Delegation of Authority

Property owners have the ability to enter into a payment extension agreement with the municipality within one year of registration of a Tax Arrears Certificate. Often, there is a delay in taxpayers making a request to enter into an agreement as they may look for other options first (e.g. remortgage their property) which may make it impossible to seek Council approval prior to the legislated deadline.

The last two summers Council has delegated the authority to enter into an extension agreement to the Director, Revenue and Materiel

Management. Council will be required to pass a confirming by-law following execution of the extension agreement. There will be no accompanying corporate report as the purpose of the by-law is self-explanatory. Contracts will continue to be reviewed by Legal Services prior to execution.

**CONCLUSION:**

The City entered into a Tax Arrears Extension Agreement with the owners of 285 Wallenberg Crescent on October 26, 2011. The Agreement expires on November 1, 2013. The owners have adhered to the terms of the agreement to date and have requested an extension to November 1, 2014 to pay the balance of the cancellation price. An extension would avoid tax sale of the property provided the owners adhere to the terms of the agreement. Failure to meet any payment date and/or amount specified in the agreement will reinstate the tax sale process.

During the past two summer recesses, Council delegated the authority to enter into extension agreements to the Director, Revenue and Materiel Management.

BUDGET COMMITTEE

OCT 16 2013

UB-1

**DATE:** September 26, 2013

COUNCIL AGENDA

Oct 30, 2013

**TO:** Chair and Members of Budget Committee  
Meeting Date: October 16, 2013

**FROM:** Paul A. Mitcham, P.Eng., MBA  
Commissioner of Community Services

**SUBJECT:** Sport Field Rates

- RECOMMENDATION:**
1. That a by-law be enacted incorporating the new, revised and existing Sport Field Rates from January 1, 2014 to December 31, 2014 as outlined in Appendix 1 attached to the Corporate Report dated September 26, 2013 from the Commissioner of Community Services entitled "Sport Field Rates."
  2. That Council endorse the proposed 5-year plan for Sport Field Rates as a long-range framework to inform the annual rates and fees process that is subject to annual approval.

**REPORT  
HIGHLIGHTS:**

- The 2014 pricing structure was shared with affiliated youth field organizations which included six (6) ball groups, six (6) soccer groups, football and rugby.
- The proposed 2014 pricing structure addresses affiliated ball groups feedback related to the 2013 season which included administering tournament rainouts and the number of contracts received.
- The proposed 2014 pricing structure seeks to maintain cost recovery ratios.
- To ensure a balanced approach between affordable user fees and cost recovery and to provide groups with sufficient time to budget

for impacts staff propose a 5-year plan to increase operating cost recovery rate for natural turf from 30% to 32%.
--

**BACKGROUND:**

At the Budget Committee Meeting of November 21, 2011, Council received a Corporate Report entitled "Recreation and Parks Pricing Study Final Report" from the Commissioner of Community Services. In that report Council approved the recommendations of the Pricing Study in principle subject to annual review through the budget process and the approval of recreation program and rental fees.

The Pricing Study is founded on the principle that, in order to ensure service sustainability, all Recreation and Parks & Forestry Lines of Business should endeavour to maintain or incrementally increase their cost recovery rate year over year. Since the revenue used to offset costs to provide Recreation and Parks & Forestry services is derived through property taxes or user fees, any additional revenue needed to maintain cost recovery, not recovered through user fees, will ultimately come from an increase in property taxes.

The key objective of the Pricing Study with reference to rentals was to ensure that a logical pricing foundation be established to facilitate a system that recognizes the importance of customer satisfaction and cost recovery.

**Sports Field Pricing**

The Pricing Study made two (2) significant recommendations specific for sports fields: 1) that all sports field rental rates move to a structure based on an hourly rental rate and 2) that non-primetime rates for sport fields be eliminated. The move to an hourly rate created a consistent platform from which to compare prices and allowed staff to better manage and track utilization trends that are critical in determining capital expenditures and field provision levels.

The new sports field rental structure was presented to user groups in a series of engagement sessions in 2011 and 2012. Following these sessions youth affiliated ball groups had additional questions and areas of concern that needed to be addressed before the new structure would be supported.

At the Budget Committee of November 26, 2012 Council received a Corporate Report entitled "Sport Field Rate & Deputation Response" from the Commissioner of Community Services. In that report staff addressed the concerns of the affiliated youth ball groups related to the new pricing structure and committed to meeting with affiliated youth groups annually to review any issues from the current season and potential rates changes for the following season.

#### COMMENTS:

To align with the principles of the Pricing Study and support a pricing framework that balances user fees with funding from taxes, staff recommends the following rate structure for the 2014 season:

Table 1: 2014 Proposed Pricing Structure (hourly rates)

	Affiliated Youth	Aff. Adult/Community	Resident	Commercial
Artificial	\$57.75	\$94.50	\$105.00	\$157.50
Lit Natural	\$7.50	\$9.40	\$12.00	\$16.90

10% surcharge on resident rate for non-residents

The proposed rate structure is grounded in the key principle, as outlined in the Pricing Study, that the City endeavours to maintain and incrementally increase cost recovery year over year. Groups were advised that the City, at a minimum, would require pricing that maintains last years' recovery ratio.

The operating cost recovery rate for sport fields is projected to be 30.14% in 2013. As predicted utilization rates decreased in 2013 as groups adjusted to the new hourly rate structure and became more pragmatic when booking facilities. For 2014, Parks and Forestry is projecting increased costs to maintain fields resulting from higher labour costs and materials and supplies costs which include grass seed, fertilizer and sports paint.

To manage utilization and cost pressures the rates and fees recommended apply greater increases on lit facilities in consideration of the general user type (competitive and adult), the higher associated costs to maintain lit facilities and what surrounding municipalities charge for lit facilities. Inflationary increases are applied to unlit and school facilities in recognition that these facilities are generally the

gateway for young children to enter into sport which is an important aspect to healthy living and keeping youth active.

#### **User Group Engagement**

Staff hosted two meetings, August 19<sup>th</sup> and September 30<sup>th</sup>, with youth affiliated ball groups to reflect on the 2013 season and present the proposed rate structure for the 2014 season. Staff also consulted with other affiliated youth field groups regarding the proposed 2014 pricing structure. Those discussions did not result in any concerns.

The following summarizes the feedback presented by the ball groups to staff through the engagement process:

#### *Issue: Administering Tournament Rainouts and Streamlining Contracts*

As a result of implementing the Pricing Study recommendations in 2013 groups were required to administer tournament rainouts and received a greater volume of contracts.

To address feedback regarding administering tournament rainouts and increased contract volume, staff recommends the introduction of a weekend rate (20% discount from the weekly rate). The tournament rate has been removed to facilitate this discount. The weekend rate recognizes the need to provide a reduced rate for groups to operate tournaments and would be eligible for the rainout discount (youth ball only) provided a minimum number of weeks are booked (22 weeks lit and 18 weeks unlit). This also streamlines the number of contracts groups would receive by reducing the variation of contracts required per season.

Initial reaction from the groups was positive however some focussed on the potential impact of removing the tournament rate and groups' ability to operate cost effective tournaments. Staff recognizes that groups will experience incremental rate increases to deliver tournaments as result of the new structure, however staff analyzed the potential impact of this change using 2013 utilization data and found that groups will save overall when booking weekend time assuming the same booking patterns.

Issue: Sport Field Maintenance Levels

It is the ball groups' perception that maintenance service levels are higher in other municipalities and as a result that rates to book Mississauga facilities should be lower. Based on benchmarking of surrounding municipalities it has been determined that Mississauga's service levels are comparable. Further, when benchmarking the 2014 proposed rate structure staff found Mississauga's hourly rate to be more than 20% lower when comparing similar facilities in neighbouring municipalities. Table 3 provides a comparison of youth lit facility rates from surrounding municipalities.

Table 3. Lit Facility Rate - Municipal Comparisons

	Mississauga	Burlington	Oakville	Brampton
Youth Lit Facility Rate	\$7.50/hour**	\$11.81/hour*	\$10.50/hour*	\$9.28/hour*

\*Based on 2013 rates and excludes lighting surcharge

\*\*2014 proposed rate

Through the development of the Outdoor Sport Field Management Policy, the Mississauga Field Users Network will have an opportunity to review the City's current maintenance standards and assist in the development of new standards where it is deemed appropriate and necessary.

Issue: Capital Contributions

Users have requested an ability to provide capital contributions to new capital, replacement and upgrade projects. Existing capital partnerships will continue to be respected and new requests considered on a case by case basis. Longer term, a capital partnership framework will be included in the Outdoor Sport Field Management Policy.

Issue: 2014 Proposed Rate Structure

Youth ball groups believe that the lit facility price increase is too high. Although groups understand staff's intention to maintain and incrementally increase cost recovery ratios and the potential impact to the tax base should the City not maintain these ratios; principally groups believe that the City should only apply inflationary (2-3%) increases against all sport field facilities in order to maintain affordability for participants.

The overall impact of the proposed 2014 pricing structure on affiliated youth ball groups is anticipated to drive incremental revenues of \$8,118, which represents a total increase of 6.06% over 2013 and is predicated on no further decrease in utilization.

#### **Future Sport Field Rates**

To maintain a balance between affordability and cost recovery and to help groups forecast their budgets and fees, staff is proposing a 5-year rates and fees plan for sports fields. The plan proposes to incrementally increase the operating cost recovery rate from 30% to 32% over the next five years subject to Council approval through the annual Fees and Charges by-law. Table 4 outlines the proposed 5-year plan for sports fields.

Table 4. Proposed 5-Year Plan: Sports Field Rates

Field Type	Current	Year 2	Year 3	Year 4	Year 5
Artificial	\$55.00	\$57.75	\$60.65	\$63.70	\$66.90
Lit Natural	\$6.50	\$7.50	\$8.50	\$9.50	\$10.50
Unlit Natural	\$3.25	\$3.35	\$3.45	\$3.55	\$3.60
School	\$0.50	\$0.55	\$0.60	\$0.65	\$0.70
Cost Recovery**	30.14%	30.50%	31.37%	32.07%	32.62%
*Proposed rates for natural fields are based on the affiliated youth base rate					
**Cost recovery is based on Natural Sports Fields only and assumes no change to utilization and is based on COLA for City maintenance and labour costs.					

**FINANCIAL IMPACT:** The revenue impact of the proposed 2014 rates and fees for sportsfields are based primarily on market price comparisons, benchmarks and an examination of historical price changes and the impact on volume and utilization projections. Incremental revenues of \$58,400 for sport fields is projected in 2014, predicated on no material change to utilization rates.

**CONCLUSION:** The recommendations contained within this Corporate Report are consistent with the framework, and methodology, endorsed by Council through the 2011 Recreation and Parks Pricing Study. The proposed pricing structure addresses some of the feedback brought forward by affiliated youth groups. The proposed rates and 5-year plan allows the City and sports organizations to continue to provide quality and affordable services for residents, while maintaining an appropriate balance between property taxes and user fees.

**DATE:** October 21, 2013

COUNCIL AGENDA  
Oct 30, 2013

**TO:** Mayor and Members of Council  
Meeting Date: October 30, 2013

**FROM:** Gary Kent  
Commissioner of Corporate Services and Chief Financial Officer

**SUBJECT:** Committee of Adjustment *Planning Act* Fees Update

**RECOMMENDATION:** That the Corporate Report dated October 21, 2013 from the Commissioner of Corporate Services and Chief Financial Officer titled "Committee of Adjustment *Planning Act* Fees Update" be received for information.

**REPORT  
SUMMARY:**

- A review of the Committee of Adjustment Section of Appendix 1 attached to the report titled "Amendments to the *Planning Act* Processing Fees and Charges By-law 253-12, as amended" from the Commissioner of Planning and Building was undertaken;
- Appendix 1 was revised to clarify an increase to the Residential Multiple Application (10 or more) within a Plan of Subdivision fee.

**BACKGROUND:** On October 16, 2013, Budget Committee considered a report titled "Amendments to the *Planning Act* Processing Fees and Charges By-law 253-12, as amended" from the Commissioner of Planning and Building and a question regarding the Committee of Adjustment fees was brought forward regarding the Residential Multiple Application

(10 or more) within a Plan of Subdivision fee. The matter was referred to the October 30, 2013 Council meeting for clarification.

By way of background information, on October 17, 2012, Budget Committee considered and approved the recommendations contained within the Corporate Report titled Proposed Changes for the Committee of Adjustment Fees and Charges under Budget Committee recommendation BC-0027-2012 which was subsequently adopted by Council on October 24, 2012.

Within the new fee structure, a gradual increase to Minor Variance fees was proposed over a four year period starting in 2013. In addition, a gradual increase in fees for Consent was proposed over the same four year period. Council at that time determined that the Consent – New lot or lot addition application fee should be increased to the maximum level immediately in 2013.

The following table indicates the fees approved for 2013-2016:

Application Type	2013	2014	2015	2016
Minor Variance - Residential	\$700	\$800	\$900	\$1000
Minor Variance – All others	\$975	\$1150	\$1325	\$1500
Consent – New lot or lot addition	\$2500	\$2500	\$2500	\$2500
Consent – Easement only	\$1400	\$1600	\$1800	\$2000
Deferral Fee	\$200	\$200	\$200	\$200

**COMMENTS:**

As noted in the Corporate Report titled “Amendments to the Planning Act Processing Fees and Charges By-law 253-12, as amended” from the Commissioner of Planning and Building under Appendix 1, Schedule ‘A’ on page 1 of 11 of Appendix 1 under the heading Minor Variances, it was noted that the Residential Application Fee was

increasing from \$700 to \$800 in 2014 in accordance with Budget Committee recommendation BC-0049-2012 which approved the gradual increase in Committee of Adjustment fees.

A question arose regarding the fee for Multiple Residential Applications (10 or more) within a Plan of Subdivision which was indicated on Appendix 1 of the Report to be \$700 for the first 10 applications. This fee should have shown the base fee increase from \$700 to \$800. The attached Appendix 1 has been revised to reflect the correct base Residential Application fee increase for the Multiple Residential Application (10 or more) within a Plan of Subdivision fee.

**FINANCIAL IMPACT:** There will be limited financial impact resulting from the change in fee as the Multiple Residential Application (10 or more) within a Plan of Subdivision fee is not often utilized.

**CONCLUSION:** A review of the Appendix 1 attached to the Corporate Report titled "Amendments to the Planning Act Processing Fees and Charges By-law 253-12, as amended" from the Commissioner of Planning and Building was conducted and a typographical error was found as the Multiple Residential Applications (10 or more) within a Plan of Subdivision fee which should have reflected the base increase in the Residential Application Fee.

COUNCIL AGENDA

Oct 30, 2013

Letter:

Greetings,

We are asking for an amendment to Mississauga By-law 98-04 to allow us to keep backyard chickens. Keeping chickens is an environmentally friendly way to reduce kitchen waste and provide healthy free range eggs from animals whose lifestyle and diet we know and control. Many cities all over Ontario and Canada are now passing By-Laws allowing chickens and are finding no problems when individuals choose this route. The environmentally friendly, health conscious residents of Mississauga should have this option too.

## Mississauga Backyard Petition

## Recipient:

Mayor Hazel McCallion, Jim Tovey, Patricia Mullin, Chris Fonseca, Frank Dale,  
Bonnie Crombie, Ron Starr, Nando Ianniccia, Katie Mahoney, Pat Saito, Sue  
McFadden, and George Carlson

## Letter:

Greetings,

We are asking for an amendment to Mississauga By-law 98-04 to allow us to keep backyard chickens. Keeping chickens is an environmentally friendly way to reduce kitchen waste and provide healthy free range eggs from animals whose lifestyle and diet we know and control. Many cities all over Ontario and Canada are now passing By-Laws allowing chickens and are finding no problems when individuals choose this route. The environmentally friendly, health conscious residents of Mississauga should have this option too.

Christine Fukumoto	Toronto, Canada	2013-08-07	Canadians need to be more in touch with where their food comes from. Keeping a flock of chickens contributes to a healthy body and mind through fresh food, and with delightful interaction with the animals themselves.
James Marchment	Toronto, Canada	2013-08-07	Chickens are our friends.
Lorraine Piotrowski	Mississauga, Canada	2013-08-07	People should have the freedom to collect eggs from their own chickens - it hurts no one and benefits the homeowner.
Windsor Chan	Mississauga, Canada	2013-08-07	I believe that restraints on liberties should be kept to a minimum.
Chelsey Hennig	Parry Sound, Canada	2013-08-07	This is important to me because one of my friends aunts has chickens in her backyard and they dont harm anyone. Chickens are SO harmless this is a pointless bylaw.
Brianna MacGillivray	Toronto, Canada	2013-08-07	Raising my own chickens is a right a would eventually like to exercise.
Amber Kari	Regina, Canada	2013-08-08	Chickens are not only good pets, but they are a sustainable way to produce your own eggs.
Justin Tisdelle	Etobicoke, Canada	2013-08-08	Why wouldn't it be?
Monica Goodchild	Victoria, Canada	2013-08-08	Chickens are a positive and healthy addition to any family. They provide eggs (protein) to families, and they also benefit by creating manure that can be used to fertilize gardens. They aren't noisy (let's face it...who has dogs in their yard that NEVER stop barking!?) I find it crazy that we can have some animals that (let's face it) other than provide us an emotional benefit (chickens can too!) they don't provide us with food and/or other beneficial things. GO CHICKENS!
Amanda LeBlanc	Mississauga, Canada	2013-08-08	I am also looking to have this by-law changed!
Gill Jenkinson	Brockville, Canada	2013-08-08	Brockville allows chickens in city limits.
Mary Robison	Guelph, Canada	2013-08-08	Many communities (including Guelph) allow the raising of chickens in residential backyards because they do not negatively impinge on neighbours in any way, and they also allow the production of healthy food with a very small carbon footprint.
Debby Keown	Mississauga, Canada	2013-08-08	I believe we should be able to keep a limited number of chickens to supply eggs to one household
Roseanne Foster	Toronto, Canada	2013-08-09	Because we need more chickens that are not imported from China
Diane Scott	Etobicoke, Canada	2013-08-09	As long as the animals being kept are healthy and have a clean environment I think it is a great way to obtain truly fresh eggs.
Katherine Kohler	Toronto, Canada	2013-08-09	Chickens provide a sustainable healthy food source for families. They should be allowed to be kept within limits on residential property.
BARBARA HERRING	PETERBOROUGH, Canada	2013-08-09	We all need to know how to use our land to grow food and care for other beings. People are allowed to have many cats - beings that are decimating our small bird population. Chickens take so little and give so much!
Diane O'Neill	Toronto, Canada	2013-08-09	It is a question of individual rights that don't infringe on communal rights.
ANN SINGER	TORONTO, Canada	2013-08-09	I think everyone should be allowed to have chickens in their backyard. It is time to change the bylaw!
Sylvia Naumovski	Mississauga, Canada	2013-08-09	A limited number of chickens make a nice addition to the community . They make good pets and if cared for properly shouldn't be a nuisance for the neighbours.

Melissa Cuke	Mississauga, Canada	2013-08-09	Backyard hens are harmless and can be an invaluable support for families and cities who wish to prioritize sustainability and food security. I would be proud of Mississauga were we to act progressively on this issue
Marilyn Smith	Binbrook, Canada	2013-08-09	Chickens are harmless and reduces factory farming and not noisy. Not sure what the problem is?
Hayley Oosting	SIMCOE, Canada	2013-08-09	We should be able to grow our own eggs.
Julie Walker	Caledonia, Canada	2013-08-09	People have rights, rights to live as they see fit and to be self sustaining
glenn reid	miss, on, Canada	2013-08-09	because im going to build a crap load of chicken coops in miss...)
brandon besharah	Toronto, Canada	2013-08-09	individuals should have the right to produce their own eggs since food they buy from stores can no longer be trusted. Chickens are harmless, quiet and low maintenance.
Tony Bui	appleblossom circle, Canada	2013-08-09	fresh eggs. yum.
Bessie Krsovan	Waterloo, Canada	2013-08-09	We should be allowed to feed our family fresh eggs raised the way we choose without the added chemicals and drugs.
Don Dickson	Binbrook, Canada	2013-08-09	My sister lives in Mississauga and might one day like to have her own chickens.
Hana Otta	Etobicoke, Canada	2013-08-09	It is our basic right to keep chicken which provide us with safe food. There is no law against cats and dogs which can be dangerous. No one was ever bitten by chicken
Louise vanderPut	Mississauga, Canada	2013-08-09	Let's get real and allow people a few chickens in their backyard. I would prefer that this is monitored to ensure that the animals are not overcrowded and are looked after well. This is a beautifully designed cage of Ms. Kalich for the handful of chickens she keeps. We need more ways like this to help keep urban folk and their children connected to real food.
Kristen McKendry	Mississauga, Canada	2013-08-09	I have been lobbying for the right to keep hens myself, for years. It's the logical step to take if we're serious about food security. I can grow all my own vegetables, but not my protein. Eggs would fill that gap.
Martin Rojcik	Mississauga, Canada	2013-08-09	Grow domestic , Stop supporting animal cruelty At large Farms.  Have a freedom of choice on my own property.  Support local food chain.
trevor kendall	mississauga, Canada	2013-08-10	Much safer and nicer to animals!!
John Biesiadecki	Kingston, Canada	2013-08-10	There really is no conceivable threat in raising a small number of chicken in a backyard. What gives?
Tait Luste	Mississauga, Canada	2013-08-10	In this time of growing uncertainty about food products and more and more people trying to grow their own gardens having a few chickens makes sense. We would have to license it and have rules in place but I think it is very progressive to do this.
Lori Whittaker	Hamilton, Canada	2013-08-10	Chickens are part of sustainable living. If well treated should be more allowable than other pets.
Carla DeMarco	Mississauga, Canada	2013-08-10	I agree that a limited number of chickens is perfectly acceptable, and that with growing concerns about the way animals are treated and what they are fed, this is the way to go to ensure they are being treated ethically and that the eggs are a better quality.

Kathy Stevenson	Bashaw, Canada	2013-08-10	This is important in so many ways: personal choices, freedom, educating young people to appreciate what goes into producing food and educating the public not be afraid of a few small chickens!
Barrie Malloch	Mississauga, Canada	2013-08-10	along with the ban on having clothes lines in your yard, this is another silly by law that needs changing
Alan Ali	Mississauga, Canada	2013-08-10	I want organic eggs
Kevin Hewitt	Toronto, Canada	2013-08-11	Urban farming is where we should be going. Educate the public on the benefits.
Ernest Harding	Mississauga On., Canada	2013-08-11	I like fresh Eggs , and raising animals.
Teresa Culpeper	Mississauga, Canada	2013-08-12	Why should it not be important to me? Keeping chickens in a humane environment to collect their eggs for healthy human consumption - where is the problem? Other than stores & government can't collect on the profit! You let people keep exotic animals as pets which in itself is animal cruelty because these animals are not meant to be pets but someone cannot keep a few chickens in their yard to raise safely & humanely without harm to other humans or the chickens - where is the logic! Absolutely, Marianne Kalich & anyone else who wishes to raise chickens for their eggs should be allowed to!! With the way animals, in particular farm animals are being inhumanely kept & raised you should be encouraging this individual & others like her. Perhaps if enough people started keeping their own chickens, the farm factories would be forced to rethink the way they raise their birds & maybe, just maybe the government might start to wake up and take notice!
Nelly Cardenas	Mississauga, Canada	2013-08-12	environmentally friendly eggs for our families - not to the animal cruelty in the big companies
Christine Nightingale	Brampton, Canada	2013-08-12	Home grown eggs from kindly treated animals are far more nutritious and delicious than those obtained from 4 hens in a cage the size of a microwave. I am a former instructor of Holistic Nutrition(George Brown College) It is a fundamental right to eat healthy food of known and trusted origin. .
INDER SHEORAN	Mississauga, Canada	2013-08-12	Though I am a vegetarian but I strongly support for raising hens in the back yard. They are much better than having a dog in the neighborhood which keeps barking all 24 h and you have to keep shut your doors and windows all times to avoid the noise.
Jack Kowalczyk	Caledon, Canada	2013-08-12	to exercise one's right to healthy food. Also solving problem of organic waste as well as composting the soil for the purpose of growing own organic foods at a household level.
Michelle Murray	Markham, Canada	2013-08-12	Having access to humanely raised safe eggs should be a right
Kennetha James	Mississauga, Canada	2013-08-12	I find it very pleasing to see a few chickens in the backyard. I don't own any but I feel if a responsible resident of Mississauga wants to care for a limited number of chickens. I feel 6 is maximum and they must be properly cared for. The city could profit from this privilege by having the owners licensed. Modest fee, of course.
Tanya Campbell	Mississauga, Canada	2013-08-13	I think backyard chickens should be allowed.
Grace Gwozdz	Brampton, Canada	2013-08-13	it is the only way to restore balance in the environment in the city.
K L Kho	Brampton, Canada	2013-08-13	It is time to get over this obsession with ridding our yards of plants, animals and other things that could actually be productive and of use, not merely ornamental. Our neighbours' dogs are far noisier than a few hens would be, and while loving pets do not provide food or enhance our relationship with the production of food, something most children would benefit from.

Haru Greco Liu	Montréal, Canada	2013-08-13	Hens are not noisy, smelly, nor do they attract pests when well taken care of. They are a pet like any other. We can have noisy dogs and dangerous snakes as pets, but no hens? That makes no sense. Chickens are wonderfully-behaved companions with the added bonus of being a source of food through eggs. The by-law banning them is ridiculous, as it is in no way based on practicality, but rather on social acceptability, which is completely wrong. Please join the 21st century of urbanity and reverse this illogical by-law!
Tom Wharton	Mississauga, Canada	2013-08-13	Chickens help reduce the bugs, provide compost, are very controllable as pets. They do not run the street, make noise, attracts pests. They do help people realize humane treatment of animals. Chickens are also very smart pets that we become attached to.
anna wharton	mississauga, Canada	2013-08-13	Chickens serve many good ends for the urban backyard food chain. They create good manure, kills bugs, provide healthy eggs, recycle kitchen waste, limit shopping trips for factory farmed eggs. Small scale food production is a right. If people have the space and the neighbours have no complaints over treatment, then they are as good as any small animal pet. Time to rethink the pointless restriction.
don Foden	Scarborough, Canada	2013-08-13	Very outdated. If kept properly there is no smell. Less noise than a family with a pool in their back yard.
David Gardner	Pickering, Canada	2013-08-13	This bylaw is outdated and needs to allow green families to take back their food. Hens are not noisy, and can be an outstanding asset avoid city waste, and bring superlative nutrition through fresh eggs.
Jeanne Kalich	Toronto, On, Canada	2013-08-13	My daughter lives in Miss. & has chickens & loves them.
Veruschka Grant	Mississauga, Canada	2013-08-13	Not proven that backyard chicken cause diseases. Silly to say that they may fly the coop and scare children; then there wouldn't be dogs, cats allowed and what about all the wild animals that we have (squirrels, racoons etc) Flying the coop can be regulated with proper enclosures; just like dogs must be leashed. There is no evidence that there will be feral chickens or abandonment of them, this is just hypothetical fear mongering. The chickens can be licensed if needed for a small fee and this risk could be virtually eliminated if it is indeed a risk at all.

Aine Suttle	Toronto, Canada	2013-08-13	I grew up in a city where lots of people had chickens. There was never a problem. We have become too detached from our food.
Deena Altman	Toronto, Canada	2013-08-13	I fully support Marianne Kalich and applaud her conviction!
Alice Kostaki	Toronto, Canada	2013-08-13	It is just silly that people cannot have some chickens on their property. As long as the animals are well taken care of let them be. There are far more important issues in this world besides backyard chickens!
Linda Thomson	Mississauga, Canada	2013-08-13	Eating local and organic should be important to everyone
Judith Stuart	Mississauga, Canada	2013-08-13	I'd like a few laying hens myself! Aware of this oppressive law, I haven't bought any, but if the law was lifted I would have four hens for myself in our large yard, with a permanent pen (heated in winter) behind the garage -- and invisible from anyone unless they enter the fenced yard. As a girl in suburban Chatham, Ontario, we kept a small hen-house. They kept the yard free of mosquitoes and other insect pests, and I recall as delightful the collecting and eating of fresh eggs.

Janet Pond-White	Toronto, Canada	2013-08-13	This is a humane option for supplying eggs.
Maria Arts	MISSISSAUGA, Canada	2013-08-13	Obtaining healthy foods is very important for my family. Hens are no more of a nuisance than dogs or cats - those pets are allowed so why not a reasonable number of hens?
rosemary ferguson	mississauga, Canada	2013-08-13	Some people do not like cats or dogs as pets, but prefer to have chickens as pets. A few chickens in a backyard, as long as they are sheltered and fenced-in with a run, is no problem. I know someone in Brisbane, Australia, who had 4 of them as pets and named each one. She was also able to have fresh eggs everyday. Chickens do make good pets and make some people happy and content.
Paul Hoepfner-Homme	Cobourg, ON, Canada	2013-08-13	City-dwelling Canadians should have the right to produce their own food, in any safe, responsible way that does not disturb the neighbourhood. This exactly is what Ms. Kalich is doing, and in fact her chickens are only serving to enhance the neighbourhood. Keep up the good fight, Ms. Kalich.
Diana Patkowski	Mississauga, Canada	2013-08-13	My mother would like to also raise chickens.
Bill Wu	Mississauga, Canada	2013-08-13	Let's us treat the hens equal. When the numbers are limited in the backyards, they are pets to us.
Tamara Bernstein	Toronto, Canada	2013-08-13	It makes no sense to ban small flocks of chickens that are appropriately kept and cared for, when cities allow animals that are genuine, harmful pests whose feces are biohazards (such as raccoons, pigeons, and yes: cats and dogs!) to live in urban areas, and does little to enforce bylaws protecting citizens from off-leash dogs, and uncollected pet feces in our parks and on our streets and even private property!
Julien Franche	Cantley, Canada	2013-08-13	Because I believe that there is something wrong with this earth if you can have 3 dogs that doesn't have any benefit to your health but you can't have a few chicken that can have a big positive impact on the food you eat.

Shari Phillips	Edmonton, Canada	2013-08-13	I feel it isn't a hassle for people to have a few chickens in yard and have own eggs. It's more caring and kind to actually have them as pets and not hurt them to get eggs then keep them locked in small areas to feed people. This is definitely the way I'd go if I didn't have so many little ones. I might even get a few for our family when my children are a bit bigger. :)
Stefani Arts	MISSISSAUGA, Canada	2013-08-13	We are allowed to have dogs and cats, so why not chickens? I support keeping cage free animals and chickens in the backyard are not only a bug control but they also provide healthy eggs.

Dora WITNEY	Mississauga, Canada	2013-08-14	Self-sufficiency, health, knowing my eggs would be free from antibiotics and who knows what else hens are fed at poultry farms. Plus, chickens are treated horrendously on poultry farms. If residents were allowed to keep their own chickens, our reliance on and support of <b>factory farming</b> would diminish and maybe the cruelty of how farmed chickens live out their lives would too. I'm keeping my fingers crossed!

Anyway, as long as a pet doesn't make sound, I don't see why anyone should complain. Dog gets to stay in backyard and they yell too. Of course, chicken is environmental way of raising food. Especially since today's meat, who knows what chemical is that. Recently American even clone meat. Yew. I do think they should have a small law about how many pet you could have, because of the smell and health. (Saw the news a couple of years ago about a lady sell rabbit got a household of rabbit, I was disturbed by the picture)

shahrukh pestonji	Mississauga, ON, Canada	2013-08-14	If we can have folks with dogs in their backyard, with barking at all times of the day and night, why aren't folks allowed to have chickens? Chickens don't bark, don't foul other people's lawns, produce wonderful fresh eggs, eat bugs, and produce fertilizer for plants. We are talking backyard coops here, with free run chickens, not industry farms. When I was young, we raised chickens in our backyard, and I still remember the thrill of finding a freshly laid warm egg. It also taught me, very early on, where sustainable food comes from, and how its put on the table. As far as odour and smell is concerned, as long as the owner has the proper measures in place, it is non-existent. I can smell more putrid odors in the beaches (with multi million dollar homes) from Ashbridges bay. My house is near sixteen mile creek in mississauga, and I have been visited by raccoons, skunks, rats, rabbits, voles, mice and the list goes on. And I am facing a major thoroughfare!!!. Come on folks, please give nature a break. Lets please learn to co-exist with nature, and deal with issues using common sense and good judgement.

Arlene Perry	Victoria, BC, Canada	2013-08-14	All of Greater Victoria households are allowed to keep chickens. With Monsanto doing what it is doing to the planet, all people should have the human right to produce their own food. Try buying eggs from a store, and buying organically-produced free-range eggs. Break one of each in bowls. Note the thickness of the shells, the thickness of the membranes, the colour of the yolks, the difficulty with which you can break through the membrane enclosing the yolk...the quality differences will astound you. Our food supply is becoming poorer quality over time. It is our right to produce our own healthy, high quality food for our consumption.

**[I REQUEST THAT THIS COMMUNICATION BE INCLUDED AS CORRESPONDENCE IN THE OCTOBER 9, 2013 COUNCIL MEETING MINUTES AND OCTOBER 21, 2013 GOVERNANCE COMMITTEE MINUTES]**

Dear Madam Mayor,

I'm sitting on the floor outside the Security Office as Crime Awareness Day 2013 is happening all around me. I can think of no more fitting way to finally deliver on my February 2010 promise to meet with you to discuss my concerns relating to the City's governance in general, and your Corporate Security "force" in particular.

Please remember that I requested permission to document our meeting on video and you responded with "anything you want". I also understand that at best, I might be able to get an hour of your time. I propose that we meet on Monday, October 6, 2014 –just over a year from now. I chose this date for three reasons.

First I've attended enough court sessions to know that to make the most efficient use of time, lawyers exchange factums. I propose to do that as well –provide you a series of factums over the course of a year, to be included in Council and Governance Committee minutes. These factums will be Freedom of Information documents, and audio/video evidence (ie: Staff interviews, meetings, speeches etc).

The Oxford dictionary defines "factum" as:

*factum*

*noun (plural factums /-təmz/ or facta /-tə/) Law chiefly Canadiana  
statement of the facts of a case.*

I'm sure you'll agree that if I state something supported with Freedom of Information, audio, or video evidence, then the factum will indeed be "facts of a case". Your Staff can review each and respond where they see I might be in error. Or not.

Second, I propose meeting a year from now because by the time of our meeting I will be 65 and officially a senior.

I-1(b)

My third and final reason for waiting a year is that I know that nothing I say or do will actually have any effect on anything, other than setting the record straight and finally answering your question.

What question?

You asked it during the October 16, 2008 Peel Police Homicide Information Session at Peel Regional Council. Frustrated by the spike in homicides that year, you'd asked Chief Metcalfe and Peel Regional Council, "We're spending a lot of money on programs. What is missing?"

You asked "What is missing?" five years ago. I submit that the answer to your "What is missing?" goes a long way to explain what is missing in the McMurtry/Curling Review of the Roots of Youth Violence report.

The City's 2013 Crime Awareness day is a rainy, gray affair and I've taken enough time sitting on the floor of the Great Hall.

So please slot a time for me for Monday, October 6, 2014 (or later). I look forward to a productive hour of your time.

You have my very best wishes,

Ursula

**Subject:** Question regarding my February 2007 FOI request

**Hi Ms. McEwan,**

**I've just finished an email to Ken Owen clarifying what I would like for an update on the list of bans, trespasses and arrests (BTA's) that I first requested as in FOI back in February 2007. Back then you may recall I told you that I was concerned about MissCorpSec's banning practices and wanted to analyze their BTA records especially as it related to facility, ethnicity and age.**

**If you were in Council back in December 2006 (yes, Not long ago) it was the first time I tried to give a reputation to MissCorpSec practices.**

**McCallion and Bench intimidated me so much that I backed out and alerted it's been that way that I've been emailing The Corporation, trying to get McCallion et al to analyze the bans/trespasses/arrests of MissCorpSec especially as it pertained to "at-risk youth". The Mayor's subsequent December 2006 email-refusal to investigate and assurance that the city "treated all citizens fairly" led me to Freedom of Information.**

**I sent to you and FOI for MissCorpSec banning records.**

**I know that in our talks about what I wanted in that first ban/trespass/arrest printout, I told you that I was worried about how MissCorpSec dealt with Youth and especially visible minority youth.**

**I also informed you that I wished to analyze any trends based on facilities, age and even ethnicity of those banned, arrested etc. I requested records for a decade.**

**You may recall that when you told me that MissCorpSec only began keeping computer records since January 2006. I hope that you can recall that you also said, that the only data MissCorpSec kept were "two fields".**

**I've posted that FOI list to the Net long ago and allow me to cite you at just an example. Please take a look.**

**[http://www.flickr.com/photos/43172812@N00/448642958/size\\_o/n/size/7157601623615322/](http://www.flickr.com/photos/43172812@N00/448642958/size_o/n/size/7157601623615322/)**

**As you can see Freedom of Information provided me with just two fields "Date of Issue" and "Cause of Ban".**

**You may recall that I was incredulous. I asked you how Mayor McCallion could assure me in email that Mississauga treated citizens fairly if MissCorpSec only kept those two fields and that therefore it was impossible to analyze and back up such an assurance.**

**You may recall the massive effort I expended to secure the original "logs" in order to share more details like facility name, age etc even if it were just the arrests. You know that I even headed out to Burnhamthorpe Court House for those logs. I even emailed McCallion again asking for an estimate of how much it would cost to find the "shadows" (the people banned, trespass, arrested) and tags.**

**Not Brampton Corporate Security gave me the info (date, ban/trespass, cause, facility, age, ethnicity, even security guard name) right away (first time asking) --including a vast list of other security-related queries for \$420. A true bargain especially a Time bargain.**

**My purpose for writing. Question.**

**Who at MissCorpSec back in early 2007 (when I made that first printout request) told you that MissCorpSec only kept records of those two fields and that that would all I would ever be able to get?**

Thanks.

Hi,

Me again. I've just did a quick check and have a new question.

You say that "the incident in question did not show up because it was related to a ban from all facilities while the search criteria that were driven by the FOI request was specific to Burnhamthorpe."

To be clear, the incident in question was an "all community centres" ban originating from Burnhamthorpe Archery Group.

I've just checked the Malton CC MissCorp/sec database printouts. They're from the same FOI batch as the Burnhamthorpe one --stats from for all major community centres up to September 20, 2008.

So I'd assume that there'd be a Burnhamthorpe-specific search, a McKechnie-specific search, a Malton-specific search, a RiverGrove one etc etc.

I've confirmed that so far three "all community centres" and "all facilities" bans show up DO for the Malton-specific FOI search..

So why not Burnhamthorpe?

So who at MissCorpSec confirmed your suspicions that the reason the Youth didn't show was because the printout was for a facility-specific search. Because that's simply wrong.

Or, I ask that he explain why "all community centres" "all City facilities" bans do show up in the Malton-specific searches arriving in the same batch as the Burnhamthorpe one.

The question that I have sir is this. Way back in December 2006 I alerted Hazel McCallion about concerns that I had re: treatment of at-risk youth and visible minorities at the nds of MissCorpSec.

Here's what she wrote back.

*"In any event, please be advised that the City treats all its residents fairly regardless of language or ethnicity."*

What data/stats did Madam Mayor use to make that assertion? Serious question.

Thanks

**Subject:** OPG proposed DGR in Kincardine

Dear Ms. Radice and Ms. Mullin

I was concerned to learn that Mississauga is considering passing a resolution to oppose the above repository based only on information provided by opponents.

For clarity, I am a proponent for this project, and a citizen of Clarkson.

This is an important project for Ontario. In this project, low & intermediate level radioactive wastes currently stored temporarily at surface at the Bruce nuclear site near Kincardine will be safely placed 680 m below surface in the very stable rock at the Bruce site. These wastes are from the production of electricity by nuclear stations in Ontario. These stations have provided about half of Ontario's electricity for the past 30-40 years. This project is a responsible approach to managing these wastes.

This project has been in the planning stage for about 10 years. It is presently being evaluated by the relevant federal authorities, and in particular by a federal Joint Review Panel. I strongly recommend that you let the expert panel do its job. Alternatively, you should seek input on this from Mississauga citizens. I would be happy to speak to this project. I am sure there are also other citizens knowledgeable in nuclear topics in Mississauga who could also provide input.

With regards

WHEREAS Ontario Power Generation (OPG) proposes to manage current and future low and intermediate level waste from its Bruce, Pickering, and Darlington facilities in a Deep Geologic Repository (DGR) near Kincardine 680 metres below the surface of the ground in limestone one kilometre from Lake Huron;

AND WHEREAS OPG asserts that the DGR is more secure than the current near-ground storage;

AND WHEREAS the United States of America (U.S.A.) has identified and constructed a permanent depository for nuclear waste and the Government of Canada has not;

AND WHEREAS this proposal will set a precedent for the long term management of low and intermediate level radioactive waste from nuclear power generating facilities in the Great Lakes and St. Lawrence basin;

AND WHEREAS the municipality of Kincardine came forward as a willing DGR host in 2002, and there has been extensive community outreach in the immediate area as well as extensive information available online, OPG did not sufficiently consult with the broader Great Lakes and St. Lawrence community;

AND WHEREAS there are concerns that Kincardine is the right location as no other sites were considered;

AND WHEREAS the Great Lakes and St. Lawrence Cities Initiative (Cities Initiative), an organization of over 100 cities from Canada and the United States representing over 16 million people that work together for the protection, restoration, and long-term sustainability of the largest body of surface freshwater, opposes the DGR proposal by OPG in Kincardine at this time;

NOW THEREFORE BE IT RESOLVED that the City of Mississauga support the Cities Initiative's position and oppose OPG's proposal for a DGR for low and intermediate radioactive waste in Kincardine at this time;

AND FURTHER that the City of Mississauga call upon the federal government to find an appropriate location and funding for a safe and permanent nuclear depository in Canada;

AND FURTHER that this resolution be forwarded, for immediate attention and action, to: the Cities Initiative, Chair, Mr. Keith Hobbs, Mayor of Thunder Bay as well as Joint Review Panel Deep Geological Repository for Low and Intermediate Level Radioactive Waste Case Reference Number 17520, Panel Co-Manager, Ms. Debra Myles and all local Members of Provincial Parliament.

Dear Mr. Prime Minister:

It has been brought to my attention that federal funding came to an end on March 31<sup>st</sup> of this year for Heavy Urban Search and Rescue (HUSAR) teams across the country. The City of Mississauga firmly believes this funding should be restored.

These teams require highly technical training and specialized equipment and respond to low frequency, high hazard and very visible events with the potential for much loss of life.

Maintaining these skills within a limited number of fire departments across the country through federal funding support is a very effective way to maintain a high level of readiness in centrally located cities where these skills can be accessed by other municipalities. Funding these programs only at the local level by a few large cities leads to the risk they will be abandoned as too expensive for a localized tax source to support. This in turn negatively impacts the availability of these rescue programs to all municipalities.

National leadership is required for this type of emergency readiness to best match nationwide funding resources against the likelihood of serious emergencies either natural or manmade occurring anywhere in the country.

On behalf of the citizens of Mississauga, I urge the Federal Government to restore this funding to ensure all communities in Canada have access to these specialized skills whenever they are needed.

Good Afternoon Ms. Radice.

I have been advised by Mr. Darren Bryan to send my request for a By-law amendment to your attention.

I ask that Council give consideration to amending Sign By-law 54-2004 to prohibit the placing garage sale and real estate open house signs in front of our property. Multiple signs appear at our residential area corner on a regular basis which we find offensive. We have lived with this pollution for quite some time and now would like to see it stopped.

Your help in this matter will be much appreciated.

AND WHEREAS the Greater Toronto Area alone has had five extreme weather events over the last decade with rain intensity greater than the 100 year design storm;

AND WHEREAS before 1990, only three Canadian disasters exceeded \$500 million in damages, in the past decade alone, nine surpassed that amount;

AND WHEREAS in the first 6 months of 2013, Canada has experienced two weather related disaster events estimated to be responsible for damages in excess of \$1 billion with only one half of the damages covered by insurance;

AND WHEREAS weather-related water damages are now the leading cause of property losses and the highest percentage of residential insurance claims;

AND WHEREAS Canadian municipalities are on the front line of climate adaptation and mitigation policies, strategies and leadership;

AND WHEREAS recent disastrous extreme weather events across Canada have made climate change top of the public agenda and most notably on the urgency to adapt our communities' core infrastructure to a changing climate for the protection of Canadians and their communities, and the collaborative roles that all levels of government must play;

I-6(C)

AND WHEREAS FCM Federal and Municipal programs Green Municipal Fund and Partners for Climate Protection have aided municipalities with capacity building tools to address climate mitigation, adaptation, and have proven economic benefits locally, regionally, provincially and nationally;

AND WHEREAS Canada is the only G8 country where people cannot buy insurance for overland flooding;

AND WHEREAS this Motion has been endorsed by the City of Mississauga's Environmental Advisory Committee at its meeting of September 10, 2013;

NOW THEREFORE BE IT RESOLVED that the Council of the City of Mississauga requests the Federation of Canadian Municipalities urge the federal government to incorporate climate change adaptation and mitigation principles within the Build Canada Fund; establish a permanent natural disaster relief fund; and provide sustainable funding for infrastructure to address residential and business flooding;

AND FURTHER that the Federation of Canadian Municipalities and the Association of Municipalities of Ontario request similar endorsement of all their members in good standing;

AND FURTHER that this resolution be forwarded, for immediate attention and action to: the Prime Minister of Canada, the Right Honourable Stephen J. Harper, as well as Canada's Minister of Finance, the Honourable James M. Flaherty, and all local members of Parliament.

Hi Marcy,

Sorry not to have replied sooner (and to have missed the meeting).

The timing of the signal at Bud Gregory and Central Parkway is set to slow walking speed which is the standard for crossings that are used by students and seniors. It has been set at slow walking speed since 2004. The Traffic Signals Department will review it in the next few weeks to ensure that the signal is working as it should so in plenty of time for September school start.

By copy of this email to Sacha, I am requesting that TSC ask Recreation and Parks to give consideration to removing the signs that indicate there is no winter maintenance and ensure that the Huron Heights park paths do receive winter maintenance since a significant number of St. Pio of Pietrelcina Catholic School students use the paths to access the school.

Thanks, Marcy.

Hi Sheelagh,

Missed you at the MTS meeting last night.

Would it be possible to provide some information to me regarding St. Pio parent requests (see below) as Tom has to report to Governance tomorrow morning. I would really appreciate it.

I will call you a little later today in case you are not in access of your email.

Thank you ~
