FROM: Edward R. Sajecki
Commissioner of Planning and Building

SUBJECT: **A By-law respecting Construction, Demolition and Change of Use Permits (The Building By-law)**
PUBLIC MEETING

- RECOMMENDATION:**
1. That a by-law be enacted respecting construction, demolition and changes of use permits (The Building By-law) in accordance with Appendix 1 of the report from the Commissioner of Planning and Building to Planning and Development Committee dated October 8, 2013.
 2. That the Building By-law 0060-2012 be repealed.

**REPORT
HIGHLIGHTS:**

- The *Building Code Act* authorizes Council to administer the Act and determine an appropriate fee structure to ensure cost recovery.
- The proposed five (5) percent increase in building permit fees for the next three years will result in improved cost recovery and allow for growth in operating and capital reserves.

BACKGROUND:

The construction, renovation, demolition and change of use of buildings are regulated through the Building Code Act, 1992 (BCA) and the Building Code. The BCA and the Code are enforced locally, through municipalities. Municipal building divisions review building permit applications, issue permits, inspect buildings under construction, and take enforcement action where contraventions are found.

Ontario's Building Code Act, 1992 sets the regulatory framework for the construction, renovation and change of use of buildings. It sets out and authorizes technical standards, administrative procedures, enforcement powers, and mechanisms for dispute of appeals as well as new product and system approvals.

Under clause 7.(1) of the Building Code Act, the council of a municipality may pass a by-law (The Building By-law) applicable to the matters for which, and in the area in which, the municipality has jurisdiction for the enforcement of the Act.

Clause 7.(1)(c) of the Building Code Act authorizes Council to levy permit fees. The responsibility rests with Council to determine an appropriate fee structure for all classes of building permits.

By-law 0060-2012, A by-law respecting Construction, Demolition and Change of Use Permits, also known as the "Building By-law" was enacted and passed April 11, 2012 coming into force at the beginning of the day thereafter.

Prior to passing of a By-law to introduce or change a fee imposed for permits or for the issuance of permits, the municipality must hold at least one public meeting at which any person who attends has an opportunity to make representations with respect to the matter.

COMMENTS:

The current building application fees have been in effect since April 12, 2012 based on the 2012 Development Fees Review Study undertaken by Watson & Associates Economists Ltd.

The proposed five (5) percent fee increase for the next three years is required to sustain minimum core staffing levels, deliver services within mandated timelines, improve cost recovery and build existing operating and future capital reserves.

The proposed fee increases will permit the funding of a capital reserve enabling the extension of the current e-Plan initiative. It is anticipated that by year end 2014, e-Plans will be implemented allowing applicants to submit drawing and reports electronically and

applications to be processed. This will address an industry need while implementing efficiencies and building capacity in plans examination. Planning and Building will work with Finance to establish a capital reserve to assist in funding a field automation initiative that will be an extension of e-Plans.

The proposed fee increases are shown in the revised Building Permit Fee Schedules “A” and “B” that are attached to, and form part of, the Building By-law, (Appendix 1).

By implementing the proposed fee schedule improved cost recovery will be achieved enabling Building Services to sustain the level of service that is mandated as per the Building Code Act and is expected and reasonable.

FINANCIAL IMPACT: The proposed incremental building fee increase of five (5) percent annually, will result in full cost recovery being approached as prescribed by the Building Code Act and is essential to sustaining the current levels of service.

In addition, the proposed fee increases will permit contributions to the operating reserve and the funding of a capital reserve enabling the logical extension of the current e-Plan initiative.

CONCLUSION: The proposed By-law respecting Construction, Demolition and Change of Use Permits (The Building By-law), is in compliance with the Building Code Act, 1992, as amended and, in compliance with the Ontario Building Code, Ontario Regulation 350/06 as amended.

The City of Mississauga maintains its prime destination status for global enterprise. The proposed revised Building By-law and associated fee schedules attached thereto provide for sustained future quality Building Division services, capture maximum cost recovery and maintain excellence in municipal service delivery.
