Lou on the GO

The man who was Peel's only other regional chairman, Lou Parsons was in Houston this week as chairman of GO Transit to attend the annual meeting of the American Public Transit Association. Parsons is expected to be elected vice-chairman of the huge organization and will likely become the chairman of the group, which includes virtually every transit authority in North America, next year when it holds its annual meeting in that large municipality to the east of us whose name the mayor has forbidden us to ever print again. Interestingly, Parsons was appointed GO chairman by the Tories, kept his job under the provincial Liberals (to the surprise of many), and will now be working on behalf of an NDP government.
