

# A new Community Garden is coming to your neighbourhood!

Located at the Small Arms Creative Hub  
1352 Lakeshore Rd. East, Mississauga

## What is a Community Garden?

Ecosource is excited to start up a new community garden in partnership with the Small Arms Society. A *community garden* is an opportunity for residents to literally put down roots in their community! The garden provides a welcoming space to grow and share food, and build friendships with your neighbours.

Ecosource community gardens consist of member plots where residents can sign up for *individual plots to grow food* for themselves and their families. This is perfect for people who live in apartments and are looking for space to grow their own food! The garden also has community plots which offer *opportunities for community agencies and partners to grow food* for local food banks. We also offer *FREE programs* where residents of all ages can learn about growing food together through fun and active garden games!

## Want to learn more?

If you have any questions about the new community garden at the Small Arms Building, email [communitygardens@ecosource.ca](mailto:communitygardens@ecosource.ca) or call 905-274-6222 ext. 309.
