

Townhouse Waste Cart Conversion – UPDATE

Thank you to those residents for reaching out to me regarding concerns over the possible conversion of your complex to the waste cart system.

In June along with my fellow Council Colleagues a motion was brought forward at Region of Peel Council and was passed by Council to support a request to direct staff to stop any future cart conversions in townhome complexes.

Staff was also directed to look at creative ways other than using carts that might work to make it easier for residents in the complexes to reduce waste.

They will come back to Regional Council with ideas as well as a consultation plan if there are options we may wish to pursue. But the issue of adding carts is now not an option.

I trust this will allay your concerns.

Regards,

Matt Mahoney
Councillor, Ward 8
City of Mississauga
