

March 12, 2018
Project 17-1300

**WATERMAIN REPAIRS
WINSTON CHURCHILL BOULEVARD AND DUNDAS STREET WEST
CITY OF MISSISSAUGA**

What are we doing?

- Repairing and improving the existing aging watermain along Winston Churchill Boulevard and Dundas Street West as shown on the attached map.

Why?

- To upgrade water system components and improve reliability of the existing watermain infrastructure.

When?

- We expect to start work on or about March 13, 2018, starting at Winston Churchill Boulevard.
- The project should be completed late spring 2018. All work is under warranty for two years from the completion date.
- We will start restoring the road when all water system repairs are complete, and as weather permits.

Who can you call?

Region of Peel		
Contact Person	Responsibilities	Telephone Number
Rene Gomez	Project Manager	905-791-7800, ext. 3809
Tom Graovac	Inspector	905-791-7800, ext. 3246
Moretti Excavating		
Moretti Excavating will do the work, under contract to the Region of Peel		
Contact Person	Responsibilities	Telephone Number
Theo Melo	Project Manager	905-265-7990
Tom Tauriello	Site Superintendent	905-265-7990

Working Hours

- Our contractor's normal working hours are from 7 a.m. to 7 p.m. These hours are consistent with the local municipality's bylaws. We understand this may cause some inconvenience, but a shorter working day would mean the project would take longer to complete.
- Some works may have to be performed outside of normal work hours, in which case affected resident will be notified ahead of the works.

Traffic and Parking Control

- We may need to reduce traffic to a single lane for the duration of the project.
- If we have to reroute traffic, we will place signs giving directions.

Driveway Access

- We will make sure businesses have access at all times.
- Please call the Project Manager if you have special needs related to access or business hours.

Trimming Trees

- If tree branches within the right-of-way interfere with construction, the contractor will have the trees pruned before equipment enters the drip line of the tree.
- If tree branches on private property interfere with construction, they will be pruned back to the nearest suitable trunk, crotch or branch.
- The contractor will ask you for permission before cutting any branches on private property. If you do not allow the contractor onto your property to trim the branches, the branches will be cut vertically at the property line.

Interrupting Your Water Supply

- It is our goal to let you know 48 hours (2 days) in advance if we need to shut off your water. Occasionally, we may have to reduce this notice to 24 hours.
- If we have to shut off your water because of an emergency, we will do everything we can to fix the problem as quickly as possible.

Vibrations

- You may feel slight vibrations from the construction work.

Repairing the Road, Curbs, and Sidewalks

- We will start restoring the road and boulevard once all replacements and service transfers are complete and as weather permits.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the project manager or inspector if you have any concerns or special needs.

How Did We Do?

- After we've finished, we will give you a postage-paid card for you to rate our work.
- Please complete the card and mail it back to us.

Thank you!

Rene Gomez
Project Manager
