

## NOTICE OF STUDY COMPLETION

### Municipal Class Environmental Assessment Study for the Extension of Kariya Drive

The City of Mississauga has completed a Municipal Class Environmental Assessment (Class EA) Study for the extension of Kariya Drive from south of Elm Drive to Central Parkway West. This Study was conducted in accordance with the planning process for Schedule 'B' projects as outlined in the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2015), which is approved under the *Ontario Environmental Assessment Act*.

The Study was undertaken to investigate the need to:

- support the creation of smaller, urban-scale blocks and a fine-grained street network, consistent with City's Official Plan policies;
- enhance multi-modal connectivity and provide routing options in a growing community; and
- enhance multi-modal access to the Peel District School Board's proposed Elm Drive Public School, which is currently under construction.

Based on the Study findings, including feedback received from the public and stakeholders, the extension of Kariya Drive from south of Elm Drive to Central Parkway West was selected as the preferred solution. The configuration of the new roadway will be established during future design phases.

A Project File has been prepared to document the planning and decision-making process for this study. In consideration of these unprecedented circumstances, the Project File is being made available for a review period for a minimum of 45 days.

The City is keeping the community safe by complying with regional and provincial guidelines, supporting physical distancing, and postponing in person public meetings. Engagement for essential and priority projects continues online paired with universally accessible methods.

Interested members of the public may view the Project File on the City's website. Should a member of the public request a hard copy of the Project File, the City will assess how this might be prepared and delivered in a manner that is consistent with regional and provincial guidelines supporting physical distancing.

By this Notice, the Project File is being placed on the public record for review from **July 16, 2020 to August 31, 2020** and is available online on the City's website at <http://www.mississauga.ca/portal/residents/rwek-ea-studies>.

If you have any questions, comments or concerns, please contact the City of Mississauga Project Manager or Consultant Project Manager at [rweka@wsp.com](mailto:rweka@wsp.com) by August 31, 2020:

Telephone: 289-835-2511

If concerns regarding the project cannot be resolved through direct discussion with the City of Mississauga, a person or party may make a request to the Minister of the Environment, Conservation and Parks (MECP) for an elevated level of study to comply with Part II of the Ontario Environmental Assessment Act (referred to as a Part II Order request). The request must be received by the Minister by August 31, 2020. Refer to the MECP website for specific instructions: <https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>

Personal information is collected under the authority of the Environmental Assessment Act and will be used in the assessment process. With exception of personal information, all comments shall become part of the public records. Questions about this collection should be directed to the Project Manager listed in the notice.

This Notice first issued on **July 16, 2020**.
