

## I CAN'T DELETE MY DRAWINGS

As an applicant you can only delete drawing(s) and document(s) while at the pre-screen stage and only while you have your “pre-screen corrections task”.

Once your application has been created, any revised drawings should be uploaded with the *exact same* name as the original drawing, this will ensure that the drawing is versioned. See [“how to - applicant resubmit”](#) for more information

If you uploaded a drawing by mistake and need it deleted, please **call 905 615 4311** or [contact us online](#). Please be sure to indicate your project number, and the name and upload date/time of file(s) that you would like removed.
