RE: Review and Entry into the Ontario Public Register of Archaeological Reports: Archaeological Assessment Report Entitled, "STAGE 2 ARCHAEOLOGICAL ASSESSMENT OF 6432 NINTH LINE, SCAPPICCHIO PROPERTY PART OF LOT 8, CONCESSION 9 NEW SURVEY GEOGRAPHIC TOWNSHIP OF TRAFALGAR, HALTON COUNTY NOW THE CITY OF MISSISSAUGA, REGIONAL MUNICIPALITY OF PEEL ", Dated Sep 13, 2018, Filed with MTCS Toronto Office on Sep 18, 2018, MTCS Project Information Form Number P046-0191-2016, MTCS File Number 0004204

Dear Mr. Clish:

This office has reviewed the above-mentioned report, which has been submitted to this ministry as a condition of licensing in accordance with Part VI of the Ontario Heritage Act, R.S.O. 1990, c 0.18.¹ This review has been carried out in order to determine whether the licensed professional consultant archaeologist has met the terms and conditions of their licence, that the licensee assessed the property and documented archaeological resources using a process that accords with the 2011 Standards and Guidelines for Consultant Archaeologists set by the ministry, and that the archaeological fieldwork and report recommendations are consistent with the conservation, protection and preservation of the cultural heritage of Ontario.

The report documents the assessment of the study area as depicted in Figure 6 of the above titled report and recommends the following:

In light of these results, the following recommendations are made:

1. The Douglas Site (AjGw-559) represents a historical Euro-Canadian site with an occupation which post-dates 1870 and therefore does not exhibit CHVI. This site is considered to be free of any further archaeological concern.
2. It is recommended that no further archaeological assessment of the subject property be required.

No grading or other activities that may result in the destruction or disturbance of the archaeological site documented by this assessment are permitted until notice of Ministry of Tourism, Culture and Sport acceptance has been received.

NOTWITHSTANDING the results and recommendations presented in this study, ASI notes that no archaeological assessment, no matter how thorough or carefully completed, can necessarily predict, account for, or identify every form of isolated or deeply buried archaeological deposit. In the event that archaeological remains are found during subsequent construction activities, the consultant archaeologist, approval authority, and the Cultural Programs Unit of the Ministry of Tourism, Culture and Sport should be immediately notified.

Based on the information contained in the report, the ministry is satisfied that the fieldwork and reporting for the archaeological assessment are consistent with the ministry's 2011 Standards and Guidelines for Consultant Archaeologists and the terms and conditions for archaeological licences. This report has been entered into the Ontario Public Register of Archaeological Reports. Please note that the ministry makes no representation or warranty as to the completeness, accuracy or quality of reports in the register.

Should you require any further information regarding this matter, please feel free to contact me.

Sincerely,

Andrea Williams
Archaeology Review Officer
