City of Mississauga

RE: Planning and Development Committee 2015/12/07 Item #4.3 – Master Planning Framework for 70 Mississauga Road South File: CD.21.POR

Dear Mayor and Members of Council:

Having worked with the City's Inspiration Port Credit process from its inception, on behalf of Imperial Oil, I am pleased to be writing to you to indicate Imperial's support for the Master Planning Framework for 70 Mississauga Road South.

The Inspiration Port Credit process has informed Imperial of the community's vision and aspirations for 70 Mississauga Road South. The Master Planning Framework for 70 Mississauga Road South has captured the transformative future potential for the site. It will provide valuable guidance for the preparation of a master plan for the site by the new property owner.

Imperial is now conducting a selection process to identify a potential proponent to purchase, remediate and redevelop the site. We will be issuing a request for proposal early in 2016 and will request that the proponents' submissions follow the Master Planning Framework for 70 Mississauga Road South.

Sincerely,

A handwritten signature in blue ink, appearing to read "E.M. Charlton".
