Meeting date:
 2016/12/14

Subject

Tax Adjustments Pursuant to Sections 357, 358 and 359 of the *Municipal Act*.

Recommendation

That the tax adjustments outlined in Appendix 1 attached to the report dated November 22, 2016 from the Commissioner of Corporate Services and Chief Financial Officer for applications to adjust taxes pursuant to Sections 357, 358 and 359 of the *Municipal Act*, be adopted.

Background

Sections 357 and 358 of the *Municipal Act*, 2001, S.O. 2001, c.25 allow a property owner or the Treasurer to make an application for the cancellation, reduction or refund of taxes for a number of specific reasons. Taxes may be adjusted when a building has been demolished or razed by fire or if a property has become exempt, changed class or has been overcharged by reason of gross or manifest error.

Section 359 of the *Municipal Act*, 2001, S.O. 2001, c. 25 allows the Treasurer to make an application for an increase in taxes levied where taxes have been undercharged due to a gross or manifest error that is a clerical or factual error, but not an error in judgement in assessing the land.

Comments

Section 357 and 358 Tax Adjustments

A total of 26 applications for Section 357 and 358 tax adjustments have been prepared for Council's consideration. The total cancellation, reduction or refund of taxes as recommended is \$87,170.42. Appendix 1 outlines the tax cancellations being recommended by property and summarizes by appeal reason the number of applications and tax dollars recommended for reduction.

Council	2016/11/22	2
---------	------------	---

Section 359 Tax Adjustments

Eight applications for Section 359 tax adjustments have been prepared for Council's consideration. The Municipal Property Assessment Corporation (MPAC) attributed insufficient square footage to these properties when preparing the 2015 assessment roll values. As a result, the properties were undervalued. Section 359 of the *Municipal Act* allows a municipality to correct the taxes for the current and/or previous year. The total increase of taxes recommended is \$6,086.74.

A combined total of 34 applications for tax adjustments have been prepared for Council's consideration. The net tax adjustment as recommended is a cancellation of \$81,083.68.

Financial Impact

The City's portion of the tax adjustments resulting from the Section 357, 358 and 359 tax adjustments is \$19,046.96.

Conclusion

Tax appeals for 2014, 2015 and 2016 taxation years are listed in Appendix 1. The *Municipal Act* requires Council to approve the tax adjustments.

Subject

Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law Update

Recommendation

That a by-law be enacted to amend the Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law 0251-2012, as amended, to effect housekeeping measures and general amendments as outlined in the report from the Commissioner of Transportation and Works, dated December 5, 2016 and entitled "Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law Update".

Background

Each year, the Transportation and Works Department undertakes a review of its refundable deposits. A review of the deposits as set out in By-law 251-12 has now taken place.

On December 12, 2012, Council enacted the Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law 251-12 implementing the 2013 deposits.

Comments

In undertaking this review, the following changes have been proposed:

The names of various Divisions and Sections have been updated to reflect the current organizational structure of the Department. For instance, the name of "ENGINEERING AND WORKS DIVISON" is changed to "WORKS OPERATIONS AND MAINTENANCE DIVISION", the name of "Works Maintenance and Operations Section" is changed to "Maintenance Standards and Permits Section" and "Traffic Engineering and Operations Section" is changed to "Traffic Management Section".

Under "Road Occupancy Permit – Banners", the deposit for Street Banners extending across a right-of-way is now changed to "\$500.00 per permit" from "\$100.00 per banner"; and the deposit for Pole Banners is now changed to "\$500.00 per permit" from "\$20.00 per pole".

Under “Road Occupancy Permit – General”, the deposit for Construction (e.g. bore holes, soils inspection, monitoring wells, etc.) is now changed to “min. \$1,000 to an amount determined by Transportation and Works” from “min. \$1,000 to max. \$10,000 as determined by Transportation and Works”.

Housekeeping changes on Section 25 & 26 to reflect current practise which is not to accept cash, debit (bank card) or credit card payments only for deposit payments or for fees and deposits combined. Payments cannot be split and uncertified cheques are not accepted. The updates are listed as below:

25. Payment for deposits is due prior to the issuance of a Permit under this By-law, unless otherwise stated by the Commissioner and may be made in full by bank draft or certified cheque only. Credit card, debit (bank card) or cash payments are not accepted. Payments cannot be split and uncertified cheques are not accepted.
26. Combined payment of all non-refundable fees and charges and deposits is due prior to the issuance of a Permit under this By-law, unless otherwise stated by the Commissioner, and must be made in full by bank draft or certified cheque only. Credit card, debit (bank card) or cash payments are not accepted for the combined payment. Payments cannot be split and uncertified cheques are not accepted.

Financial Impact

No impact will be on the 2017 budget with the proposed changes to the Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law.

Conclusion

The annual review of the Road Occupancy, Lot Grading and Municipal Services Protection Deposit By-law has resulted in revised deposits and some housekeeping changes.

2. That Council endorse the following key recommendations for changes to the Provincial land use planning and appeal system:
 - a) If a municipality has an in-effect official plan that has been reviewed and updated in accordance with Provincially established timeframes, there should be no right of appeal to a Council's refusal of an application to amend the official plan;
 - b) There should be no appeal to official plan amendments that have been brought forward to conform to Provincial policy or legislation or an upper-tiered municipal plan;
 - c) A statutory amendment should be implemented in order to establish "reasonableness" as the standard of review to define and limit the Board's appellate jurisdiction, in the place of the current practice of hearings de novo or hearing all evidence fresh, whether presented to Council or not;
 - d) The mediation stream should be strengthened and more emphasis placed on pre-screening appeals to allow for early dispute resolution.

Subject: AMO Policy Update - Province Releases Discussion Paper on Expanding Medical Responses through Fire Services

November 21, 2016

Members' Update: Province Releases Discussion Paper on Expanding Medical Responses through Fire Services

The Ministry of Health and Long-Term Care (MOHLTC) has released a discussion paper (attached) on a controversial proposal by the Ontario Professional Fire Fighters Association (OPFFA). The proposal would allow full-time firefighters, who are also certified primary care paramedics, to provide patient care in a tiered response situation. The Province says this approach would be voluntary for municipalities. AMO flagged this consultation in our June 14th communique, [Government to Consult on Expanding Medical Responses through Fire Services](#).

Premier Wynne, speaking at both the June OPFFA conference and the August AMO conference, clearly said that she and Cabinet want consultations before making an evidence-based decision on this proposal, which is expected early in 2017.

Municipal governments are deeply concerned about the direct and significant impact of the proposal on municipal emergency services, both financially and operationally. We will read the MOHLTC discussion paper carefully, but to date, there has been no evidence or cost-benefit analysis seen that shows such an approach would improve patient outcomes.

Given the lack of evidence, we don't know why this proposal is now a provincial priority, especially as municipalities would bear all the costs, labour challenges, and risks. Fire services are 100% funded by municipalities and only an elected Municipal Council has the authority to determine the level and type of fire protection services needed by its community. We are also concerned that if any Municipal Council agrees to this proposal it would be replicated throughout Ontario by the current interest arbitration system.

Municipal governments strongly prefer to work with the Province to improve and modernize our cost-shared land ambulance/EMS services. Specifically, municipalities have been asking the Province for years now to make improvements to land ambulance dispatch that would directly improve patient outcomes.

The MOHLTC discussion paper provides a clear overview of Land Ambulance and Fire Services Workforce Capacity. It demonstrates both the rising demand for paramedic services and decline in fire-related calls. We are very concerned about using municipal fire services to provide paramedic care – a shared provincial-municipal funding responsibility.

	Land Ambulance Services	Fire Services
Number of Workers	<p>~8,000 municipal paramedics province-wide</p> <p>22 dispatch centres across Ontario:</p> <p>11 are ministry-operated</p> <p>11 are operated under transfer payment agreements (6 hospitals, 4 municipalities, 1 private)</p>	<p>30,000 firefighters in Ontario (~11,300 are full-time, ~19,300 volunteer, ~300 part-time)</p> <p>Over 400 fire departments [municipal - 32 are full-time, 191 composite, 226 volunteer. Northern Fire Protection Program (NFPP) - 1 composite, 48 volunteer]</p>
Number of calls and percent change in calls	<p>Approximately 1 million calls in 2014</p> <p>Number of patients transported by land ambulance increased by about 3.5% year-over-year from 2009-2014</p>	<p>Fire services respond to more than 400,000 calls annually (461,830 in 2014) of which less than 19,000 were fire-related (4-5% of all calls). The number of fire-related responses has dropped 35% since 2005.</p>
Average Cost Per Hour	2014 average cost per hour \$213	2014 average cost per hour \$331

AMO will fully review this discussion paper (attached) through its Task Force, which includes membership from Northwestern Ontario Municipal Association (NOMA), Federation of Northern Ontario Municipalities (FONOM), Emergency Services Steering Committee (ESSC), Ontario Association of Paramedic Chiefs (OAPC), and Ontario Association of Fire Chiefs (O AFC).

Over the next months, MOHLTC will hold separate meetings with municipal employers, unions and associations, as well as technical medical advisors and will also accept written submissions from these stakeholders. AMO will take the lead in organizing these MOHLTC consultation meetings for municipal employers, including ROMA, OSUM, NOMA, FONOM, LUMCO, MARCO, EOWC and WOWC, along with the municipal staff associations we have been working closely with on this matter.

AMO will update members as this matter develops.

Subject: RE: URGENT::Recent presentation at Mississauga Council by MMAH staff

Hi Janice,

Thank you for raising with me Mississauga's questions about the new framework for Third Party Advertising (made through recent amendments to the Municipal Elections Act, 1996). The new spending limits for third party advertisers will be set in regulation and have not yet been determined. All other changes related to the new framework for third party advertising are set out in the amended Municipal Elections Act, 1996.

The lack of regulatory control over third party advertising was an issue that the Ministry heard a lot about when consulting with municipalities and the public about the Act. The amendments to the Act responded to these concerns about a lack of accountability and transparency through requirements for third party advertisers to register, and limits on both contributions and spending.

With regard to how spending limits will work, provisions in the Municipal Elections Act, 1996 regulating third party advertising will come into effect on April 1, 2018. Section 88.21(7) specifies that the formula for a registered third party advertiser's spending limit must be written so the amount calculated varies based on the number of electors entitled to vote in the election.

Under section 88.20(7) of the Act, the spending limits for candidates must also be written so the amount calculated varies based on the number of electors entitled to vote for the office. The specific formulas for calculating spending limits for candidates are set out in a Minister's regulation (O. Reg. 101/97). The prescribed spending limit for a mayor is \$7500 plus 85 cents per elector. In the sense that, since all of the electors in a municipality are eligible to vote for the head of council, the formulas for both candidates and third party advertisers will be similar as they will reference the same number of electors.

However, as I noted above, the spending limit for third party advertisers has not yet been set and will be established in regulation when the related provisions in the Act come into effect in 2018. While the legislation requires that the limit must include the number of electors entitled to vote, it does not prescribe the per elector rate or the inclusion of a base amount. These factors need to be determined and, when determined, means the limit could differ from the spending limit for candidates. For comparison, the spending limit for registrants for a question on the ballot used to be 50 cents per elector. (Registration for questions on the ballot has been removed from the Act, as will be covered under the third party advertising framework.)

My team would be happy to continue to work with Mississauga to clarify any outstanding questions that council or staff may have with respect to any aspect of the Municipal Elections

Act. Please do not hesitate to contact Marcia Wallace, Regional Director of our Municipal Services Office, Central Ontario at: 416-585-7264 or by email at marcia.wallace@ontario.ca<<mailto:marcia.wallace@ontario.ca>> .

 Subject: URGENT:::Recent presentation atMississauga Council by MMAH staff

Good morning Laurie. I hope you are well. I wanted to bring an issue to your attention and ask for some assistance in resolving it.

On Wednesday, Diane Ploss and Tristin McCredie came to Council to present on the recent amendments to the Municipal Election Act passed earlier this summer. In the course of the presentation, a lengthy discussion ensued with Council on the issue of third party advertising during elections. In particular, Council sought clarity on how much third party advertisers could spend. The answer given was they can spend the same as the Mayor in a community. I think everyone was surprised at that. I even turned to Diane who was at the podium behind me and said “You know in Mississauga that is almost \$700,000”, and she said yes. So needless to say Council went on at length on how this seemed to be very unfair, given the limits being placed on candidates.

However later that day, an article appeared in the Mississauga News that seemed to contradict the information given at Council. Here is a link to that article.

<http://www.mississauga.com/news-story/6972712-mississauga-councillors-slam-province-over-new-campaign-financing-rules/>

Given the concerns Council raised, it is important that this matter be clarified for them and for the public. Our Council meetings are telecast live on Rogers, streamed online and archived and available online for future viewing. I think at this point a letter from MMAH clarifying the rules should be provided as soon as possible. I also believe if the information provided at the Council meeting was incorrect, or the information provided to the reporter was incorrect, Council is owed an apology for the confusion. We have a Committee or Council meeting every Wednesday with the next one being held on the 23rd. It would be great to have something for that agenda. I have copied our Clerk who can work with your staff as required.

I appreciate your attention to this issue and look forward to your response

Best regards
Janice

Motion: Federal Government's Infrastructure Funding Model

WHEREAS, the City of Mississauga is advocating for a principled approach to the design of the federal government's \$81 billion funding commitment known as Canada's Long-Term Infrastructure Plan;

WHEREAS, the City of Mississauga is committed to working together with the Government of Canada and the Province of Ontario to use this funding to support priority infrastructure projects across Ontario which will promote economic growth and job creation today, while supporting jobs in the future;

WHEREAS, the City of Mississauga recognizes that in order to support sound infrastructure planning, it is essential that future programs provide greater flexibility to direct funding towards existing priorities and respecting existing fiscal plans;

WHEREAS, the City of Mississauga recognizes that federal "incrementality" rules undermine sound asset management planning by focusing only on new and accelerated projects, rather than priority projects identified in existing municipal plans;

WHEREAS, a more flexible approach overall, particularly by not imposing "incrementality" requirements for project eligibility, is necessary to properly recognize the many years of critical capital planning and prioritization work already undertaken by the City of Mississauga;

NOW, THEREFORE, BE IT RESOLVED BY THAT: The City of Mississauga support this principled approach to the design of federal infrastructure programs and calls upon the Government of Canada not to impose "incrementality" rules as part of its program design.
BE IT FURTHER RESOLVED THAT the Mayor be directed to send a copy of this motion to the federal Minister of Infrastructure and Communities and the provincial Minister of Infrastructure, as well as all local Members of Parliament and Members of Provincial Parliament.
