WHEREAS, the City of Mississauga is advocating for a principled approach to the design of the federal government's \$81 billion funding commitment known as Canada's Long-Term Infrastructure Plan;

WHEREAS, the City of Mississauga is committed to working together with the Government of Canada and the Province of Ontario to use this funding to support priority infrastructure projects across Ontario which will promote economic growth and job creation today, while supporting jobs in the future;

WHEREAS, the City of Mississauga recognizes that in order to support sound infrastructure planning, it is essential that future programs provide greater flexibility to direct funding towards existing priorities and respecting existing fiscal plans;

WHEREAS, the City of Mississauga recognizes that federal “incrementality” rules undermine sound asset management planning by focusing only on new and accelerated projects, rather than priority projects identified in existing municipal plans;

WHEREAS, a more flexible approach overall, particularly by not imposing “incrementality” requirements for project eligibility, is necessary to properly recognize the many years of critical capital planning and prioritization work already undertaken by the City of Mississauga;

NOW, THEREFORE, BE IT RESOLVED BY THAT: The City of Mississauga support this principled approach to the design of federal infrastructure programs and calls upon the Government of Canada not to impose “incrementality” rules as part of its program design;

BE IT FURTHER RESOLVED THAT the Mayor be directed to send a copy of this motion to the federal Minister of Infrastructure and Communities and the provincial Minister of Infrastructure, as well as all local Members of Parliament and Members of Provincial Parliament.
