**MATTERS SUBJECT TO DISCUSSION AND DEBATE****15. NOTICE OF MOTION**

- 15.1. Councillor Fonseca read the Motion which contains the history of this matter. Councillor Fonseca further noted her disappointment and concern with the Peel District School Board for not considering and respecting the community of Applewood Hills and Applewood Heights, and the timing of the notification and the impact it will have on the Community. Councillor Fonseca further noted that the track and field, which has been open to the public for many years is not closed off and does not have field and/or stadium lighting, and that there is a proposal to install field/stadium lighting and fencing at the field.

Councillor Fonseca questioned staff regarding the requirements of the Peel District School Board to submit plans with respect to lighting, air supported structure, artificial turf, increase parking, and requirement to conduct an environmental assessment.

Andrew Whittemore, Commissioner, Planning and Building advised that he has noted Councillor Fonseca's inquiries and will report back to Council.

Councillor Fonseca further inquired whether the lease agreement and notice to the City regarding the change from community priority to community sports partners. Paul Mitcham, Commissioner, Community Services advised that there is no requirement to provide formal notice in the change of use. Mr. Mitcham further advised that staff are working with the school board with respect to alternate sites available for community permits.

Councillor Saito commented on the zoning for commercial use and the eligibility for a building permit. Mr. Whittemore advised that the zoning examiner will look into this matter and report back. Councillor Saito suggested that if construction has begun, that a stop work order be issued. Janice Baker, City Manager, advised that issuing a stop work order is not appropriate in this process and that staff will undertake a review of this matter further and if required the Chief Building Officer will take any necessary actions. Councillor Saito further suggested that an addition to the Motion include a review by the Chief Building Officer and to take any necessary action.

16.11. Motion with respect to the Municipal Comprehensive Review/ Regional Official Plan Review

Councillor Parrish thanked Angela Dietrich, Manager, Planning Strategies and Andrew Whittemore, Commissioner, Planning and Building for their work on this matter.

Councillor Parrish read the Motion to provide background on the matter of the Regionally led Municipal Comprehensive Review process. Councillor Parrish further noted that with respect to the Mayfield West, Phase 2, Stage 2, Settlement Boundary Expansion, the City of Brampton's position is consistent with Mississauga's.

0092-2018      Moved by: Carolyn Parrish                      Seconded by: George Carlson

Whereas the draft Municipal Comprehensive Review (MCR) Guidelines of March 21, 2018 require a regionally led MCR which comprehensively applies the policies of the Growth Plan;

Whereas the Proposed Methodology for the Land Needs Assessment for the Greater Golden Horseshoe, the Province requires a detailed analysis of intensification opportunities in areas such as Major Transit Station Areas (MTSA);

Whereas City staff support the incorporation of MTSA's as per the Growth Plan Requirements;

Whereas Regional staff will need to assess the impact of the cancellation of the GTA West Corridor Environmental Assessment and the introduction of a new NWGTA study, revisiting much of the growth management work undertaken;

Whereas Regional Council has been asked to request that the Province provide relief from the Land Needs Assessment and MCR requirements, specifically in support of the Mayfield West, Phase 2 Stage 2 Settlement Boundary Expansion;

Whereas the Mayfield West Phase 2 Stage 2 Settlement Boundary Expansion requires the use of 2041 population forecasts and therefore is premature until the Land Needs Assessment has been completed to the satisfaction of the Province;

Whereas key guidance documents from the Province (Provincial Land Needs Assessment Methodology, Employment Strategy, Housing Strategy) are yet to be released or finalized, creating further uncertainty with the Province as the Approval Authority for any ROPA;

Therefore Be It Resolved:

1. The City of Mississauga supports an integrated planning process for Growth Management, population allocation and employment allocation, including any required 2041 Settlement Boundary Expansion(s) which shall consider infrastructure and its financial implications, as required by the Province's Growth Plan (2017), and as part of a Regionally led MCR process; and further
2. The City of Mississauga does not support requesting relief from the Province, as sought by the Mayfield West Landowners Group, nor proceeding with the Mayfield West Phase 2 Stage 2 Settlement Boundary Expansion prior to completing, to the satisfaction of the Province, a Land Needs Assessment that has considered the growth needed to achieve the density targets specified in the Growth Plan (2017) including the targets for MTSAs.
