Subject
New Council Orientation and Strategic Direction Setting

Recommendation
That staff be directed to organize orientation and strategic direction setting sessions for the Members of Council for the 2018-2022 term, as outlined in the report entitled, ‘New Council Orientation and Strategic Direction Setting’ dated March 15th, 2018, from the City Manager and Chief Administrative Officer.

Report Highlights
• Orientation sessions for new Council Members are organized by staff within the first 4-5 weeks after the municipal election. A proposed orientation framework for the 2018-2022 term of Council is outlined.
• A strategic direction setting event, as proposed by the Governance Committee for early in the new term of Council, is a new type of engagement session that will provide an opportunity for the new Council to work to build consensus, establish priorities and develop an increased understanding of how ward priorities fit into the city-wide priorities, and the decision-making processes related to priority setting.

Background
After the inauguration of a new City Council, the common practice is for staff to provide the new Council members with an overview of the important City priorities, projects and issues.

At the Governance Committee meeting of February 12th, 2017, a report by the Citizen Members entitled ‘Governance Subcommittee – Municipal Governance Leadership Challenge’ included some additional suggestions specific to the orientation for new / incoming Council Members, as follows:
1. That a more comprehensive orientation be prepared for new / incoming Council Members:
   a. That the orientation at the beginning of each term would establish agreed upon City priorities and the principles upon which decisions and strategic priorities will be based and prioritized. Councillors will understand the fit of their ward priorities and appropriate ward actions.
   b. Create a governance culture supportive of consensus building among Councillors beginning with the early mandate orientation sessions and a strategy to reinforce it throughout the mandate.

2. Ensure decisions are being made, aligned with, and have a balance between city-wide and ward specific issues:
   a. Annually as staff begin to prepare next year’s budget Council should be informed of potential challenges and priorities.

The Governance Committee’s direction to staff was to develop an orientation framework for Council Members, to be ready for the start of the next term of Council, that would provide a corporate-wide overview and include:

- a forum that allows all Council Members to describe their specific ward priorities and include discussion on how these priorities fit into the larger city-wide scope of initiatives and strategies
- a determination on the protocols and decision-making processes regarding how priorities are determined and/or how they might get changed, pared-down or cut.

STRATEGIC DIRECTION SETTING:

As recommended by the Governance Committee, a new strategic direction setting will be introduced for the 2018-2022 term of Council. In the past, City Council has occasionally been involved in facilitated conversations, via education sessions, regarding the City’s vision and priorities. However, as described above in the Background section, the request of the Governance Committee asks for a more in-depth discussion.
The following is a proposed outline of what an education session for strategic direction setting, for the 2018-2022 term of Council:

- **Invitees:** Council, Leadership Team, specific key staff members.
- **Tentative timeframe:** mid-February to March-end (1 day session). This timing will ensure that the priorities are built into staff work plans and the next budget cycle.
- **Suggested locations:** BraeBen golf course or the Harding Estate.

Suggested Agenda: (Note: no decisions will be made at this meeting as this is an education session only).

**Morning:**
- Environmental scan: facilitated conversation on what is generally on the minds of Council regarding such topics as: budget, economy, technology, social, political, environment, etc. (overall themes, concerns and opportunities will surface during this session).
- Strategic Plan: presentation on the Strategic Plan – a high-level overview of how far the City has advanced on the 40-year plan, additions and changes that have occurred.
- Overview of established City-wide priorities. This discussion will go into more depth on the Strategic Plan. Members of Council will discuss the approved major projects or initiatives that are important across the corporation (Transportation, citizen engagement, housing, etc.) including stage of development, funding, timing, who is affected, issues and concerns, changes that have been made over time.
- Council discussion related to strategic priority setting at a City wide basis.

**Afternoon:**
- Ward Priorities: Council members will have an opportunity to outline their specific wards priorities, both the ones already initiated and any others they may have. This will help in staff’s understanding of new or upcoming strategic direction(s) as the new term of Council begins.
- Wrap up discussion on next steps.

**OTHER ORIENTATION EVENTS:**
Additional orientation events / training sessions that also will occur early in the new term of Council include, but not limited to:

- Security Briefing
- Meeting with the Integrity Commissioner and orientation on the Council Code of Conduct
- Emergency Plan information
- Council Member webpage creation or refresh
- Mandatory on-line training (corporate policies)
- Computer training (if required)
- Media Training (if requested)

Appendix one is the index of the last orientation binder for Council and will be updated for the incoming Council.

The Region of Peel will conduct their own orientation sessions for the Regional Council Members; all efforts will be made to coordinate the scheduling of these events and avoid any conflict.

**Financial Impact**

Costs to support the orientation sessions and strategic direction setting event, as outlined in this report, will be minimal and will be covered within existing operating budget accounts.

**Conclusion**

It is important to start a new term of Council with a meaningful orientation for new Council Members and to provide opportunities for the entire Council to transition as a new Committee-of-the-Whole with agreed upon strategic and City wide priorities and an understanding of Ward priorities and a solid decision-making protocols in place. The proposed orientation sessions and strategic direction setting event outlined in this report will support these goals.
