In response to Councillor Ras' inquiries regarding the timelines for the province to make amendments to the Administrative Penalty System; availability of results from Municipalities that have already implemented Automated Speed Enforcement (ASE); warning letters prior to operation of ASE; speed thresholds, process for rotating the camera sites, speed limit changes during the summer, and potential expansion of a processing centre in the region of Peel, Colin Patterson, Supervisor, Road Safety advised of the following:

- The Province has expressed a desire to make amendments to the Administrative Penalty System Rules to include bus camera charges sometime in 2022, and that they will be looking at perhaps including automated speed enforcement and red light camera charges; however, there has been no definitive directive from the Province.
- There has been no charges laid in other municipalities; most municipalities are still in early stages of deployment.
- There will be a ninety day (90) warning period with “coming soon” road signs placed at the site where the cameras will be positioned.
- Thresholds have been determined by municipal partners, Ministry of Transportation and other stakeholders and will be applied consistently throughout the Province.
  - There will be two (2) cameras initially in operation, with the other cameras being phased in
- There are provisions to allow the flexibility to expand processing centres as required
- How the hours change during seasons is still to be determined.

Item 11.1. was addressed at this time.

Councillor Saito expressed concern that the collisions and fatalities related to excessive speeds on major arterial roads is happening now and that this issue cannot wait for a phased in approach, and that lobbying the Province to move ahead with Regulation changes sooner should be explored. Councillor Saito inquired on what needs to be done in order to implement phase two (2) and three (3) shortly after the implementation of phase one (1), Geoff Wright, Commissioner, Transportation and Works, advised that the effectiveness of the ASE needs be established and processes that support the increase of infractions needs to be in place, before moving onto the other phases.

Councillor Saito further noted that this matter is being referred to the Road Safety Committee, Traffic Safety Council, and stakeholders and that the feedback from those discussions will be provided to Council.

In response to Councillor Dasko's inquiry with respect to the flexibility to replicate processes of programs already implemented, Colin Patterson, Supervisor, Road Safety, advised that although the objectives of each program may be different, they would build on the successes of other programs. Mr. Patterson further advised that the ASE program would be reviewed after 180 days after the implementation of the program.

Councillor Mahoney and Councillor Fonseca spoke in support of the recommendations and echoed Councillor Saito's comments regarding the need to target arterial roads sooner.

In response to Councillor Fonseca's inquiry regarding feedback from the City of Toronto's effectiveness of the warning letters, Colin Patterson, Supervisor, Road Safety advised that there is no data readily available, and commented that the City of Toronto was the first Municipality to deploy their program and did so quickly, they deemed it appropriate to send out warning letters.

In response to Councillor Kovac's inquiry regarding the effectiveness of traffic calming and whether the program will continue, Colin Patterson, Supervisor, Road Safety advised that traffic calming is one tool utilized in combatting speed and it does supplement Police enforcement, and that traffic calming will continue.

Tim Beckett, Fire Chief and Director, Emergency provided an update on the current mask supply, procuring mask supply, testing effectiveness of masks to the standards, utilizing self-contained breathing apparatus (SCBA), the outreach efforts to obtain suitable masks, investigating the use of the canister system and emphasized that staff and the public's safety is not compromised with the continued use of SCBA's.

In response to Councillor Ras' inquiry regarding why other levels of government cannot facilitate obtaining a supply, Chief Beckett advised that as cases and uses slows down and the manufacturing of masks increases it's anticipated that obtaining the masks will be easier. Chief Beckett further advised that other options and opportunities with different technology, which include sanitizing and reusing masks, that are being practiced in other municipalities are being explored, and that costs are being monitored and are within current levels budgeted.

In response to Councillor McFadden's inquiry on how to ensure that we have and maintain supplies and what steps will be taken, Chief Beckett advised that staff are working along with Material Management on the ability to put together a stockpile of personal protective equipment (PPE), and working with other organizations on how to be proactive in maintaining supplies.

Councillor Fonseca suggested that this matter be raised at the upcoming Association of Municipalities of Ontario (AMO) meeting to advocate to the Province. Mayor Crombie advised that she would raise this matter, and further, acknowledged the efforts and collaborations between emergency services throughout the municipalities; however, the issue is that there is not enough supply.

In response to Councillor Ras' inquiry regarding protocol on reusing masks, Chief Beckett advised that the current protocol is single use, and that, staff continue to explore and research the exposure of reusing masks.

Mayor Crombie announced that the Region of Peel has now entered into Phase 2 of the Province's phased approach to stop the spread of COVID-19, and further announced that the number of cases in the Region of Peel are declining and emphasized that social distancing must continue with the reopening of more public spaces.

## 10.2 On-Street Parking Time Limit Suspensions

In response to Councillor Saito's inquiries regarding what other municipalities, specifically those adjacent to the City of Mississauga, are doing, messaging to the public and what types of complaints were received, Sam Rogers, Director, Enforcement advised that there were no clear plans or set criteria from the other municipalities. Further Mr. Rogers, advised that Parking Enforcement Officers have the capability of issuing warning tickets, without penalties, and suggested that between July 2nd and July 5th that warning tickets be issued to advise that force and effect will begin on July 6th, and further noted that he did not have specific details of the complaints; however, added that a number of complaints were from the south end of the city during the time that parking lots adjacent to the waterfront were closed and also, for vehicles believed to have been abandoned on residential streets.

Councillor Saito suggested that the warning period be added to the recommendation and that Communication staff provide a strong communication message to the public and also utilize the mobile signs to deliver the message.
