RE: Accessible Recreational Cycling in Mississauga

To Ben Gomberg, Manager, Active Transportation:

City of Mississauga Accessibility Advisory Committee is writing this letter as follow-up to Recommendation AAC-0009-2014, adopted by Mississauga Council on April 23, 2014 which states:

1. That the verbal presentation by Chris Spinney, Operations Manager, Lynda Spinney, President, and Chelsea Mohler, Vice-President of TRAILBLAZERS with respect to the TRAILBLAZERS' Program be received; and,
2. That Naz Husain, Melanie Taddeo, Amy Wilkinson, and Rabia Khedr form a working group to meet with member(s) the Cycling Committee to have further discussion on the concept of tandem cycling.

Members of the Accessibility Advisory Committee did meet with the Mississauga Cycling Advisory Committee on June 10, 2014, but no opportunities were identified at that time.

A meeting was held with Community Development, Active Transportation and the Accessibility Coordinator to discuss submitting an application for funding from the New Horizons Seniors Grant for an Accessible Recreational Cycling Program. It was decided that this grant program was not appropriate for this cycling program as the original idea from the Accessibility Advisory Committee was to provide inclusive cycling opportunities, not just for seniors. It was also decided that the program would be pursued when the framework of the program is more fully vetted (i.e. risk management, delivery methods, collaboration etc....). This would also allow time to pursue other granting bodies.

At its meeting of September 12, 2016 the Accessibility Advisory Committee reviewed the Committee Work Plan and again discussed the possibility of connecting with the Active Transportation Office, the Mississauga Cycling Advisory Committee, and the Commissioner of Community Services with respect to the investigation of accessible cycling opportunities for persons with disabilities, and made the following Recommendation which was adopted by Council on September 28, 2016:

AAC-0030-2016

1. That the Pending Work Plan Items Summary Chart updated for the September 12, 2016 meeting of the Accessibility Advisory Committee be approved, as amended;
2. That the Chair of the Accessibility Advisory Committee write a letter to the Active Transportation Office, copied to the Mississauga Cycling Advisory Committee and the Commissioner of Community Services, expressing support of investigating accessible recreational cycling options for persons with disabilities.

The Members of the Mississauga Accessibility Advisory Committee (AAC) wish to emphasize the importance of active transportation and recreation opportunities for persons with disabilities in Mississauga. Offering accessible cycling opportunities would demonstrate the City's commitment to making Mississauga a great place to live, work, travel, and play for everyone. Further, it would support and strengthen the City's Strategic Plan to move, belong, connect, prosper, and live green; support and strengthen the City's Accessibility Plan; and would highlight Mississauga as a Municipal leader in creating a barrier-free City for all to enjoy, regardless of ability or age.

We value the City of Mississauga's commitment to advancing accessibility in all its programs and services and appreciate staff's due consideration of this matter.

Sincerely,

Carol-Ann Chafe

Chair, on behalf of the Mississauga Accessibility Advisory Committee

Subject: Integrating cycling infrastructure to bypass Heartland

Hello, I have a suggestion for integrating cycling lanes so as to safely bypass the Heartland area of Mississauga. Please see the attached image.

The current problem:

With the current demolition of the 2nd Line bridge (which connected Bancroft Drive to Meadowvale), there are inadequately marked on-road facilities for cyclists traveling north/south to and from Meadowvale.

Suggested solution:

- Consider adding on-road painted bike lanes to the portion of Courtneypark between Mavis and McLaughlin **(A)**.
- This would link up to the existing bike lanes on McLaughlin that only go so far as Cantay Rd. **(C)**.
- A new bike lane could be painted that would link Freemont and Falbourne through the new stormwater facility, and along Cooksville creek **(B)**;
- This would then neatly integrate with the existing bike route along Ceremonial **(D)**.
