

What you get

- 4 bundles of yarn
- 4 green stems

What you need from home

- Fork (any size)
- Scissors

What to do

Step 1: Wrap your yarn around the fork.

The more yarn you use the bigger your flower will be.

Step 2: Cut a piece of yarn to tie around your pompom. Thread this piece through the middle tine at the bottom of your fork so it wraps around the bundle yarn on the fork, pull it tight and tie two knots at the top.

Step 3: Slide the bundle of yarn off the fork and cut the loops of yarn on each side. Go slowly and cut one layer at a time.

Step 4: Insert the stem into the pompom and fluff the yarn the way you like.
