Nakia Phillips (he/him) – 2 years of service
Manager, 311 Customer Service

The most enjoyable part of working at the City of Mississauga is that everyday is a new challenge. As the Manager of 311, we touch on so many things and being able to lead a team that is the hub for customer service for the City brings me pride and gratitude to help serve others. It is amazing to work for an organization that makes EDI one of the pillars of their strategic plan and initiatives. Diversity to me is showing up everyday and being able to be my authentic self, it is about representation, it is about celebrating and learning from many views, perspectives, and identities.

What drew me to working for the City was stability – a job with consistent hours and pay. Clear policies and procedures on what was expected of me as an employee. Safety is always a priority at the City as well. I also enjoy the flexibility that the City offers in terms of positions. Over my career I've had the pleasure of working for several different Departments, in various positions, in a full time or contract basis. This keeps me engaged and fulfilled.
